INTRODUCTION

To the parent:

This material is presented to you because your son or daughter has indicated a desire to participate in interscholastic athletics and you have expressed your willingness to permit her/him to compete. We believe that participation in sports provides a wealth of opportunities and experiences which assist students in personal adjustments.

A student who elects to participate in athletics is voluntarily making a choice of self-discipline and self-denial. These are the reasons we place such stress on good training habits. Failure to comply with the rules of training and conduct means exclusion from the squad. This concept of self-discipline and self-denial is tempered by our responsibility to recognize the rights of the individual within the objectives of the team. There is no place in high school athletics for students who will not discipline their minds and bodies for rigorous competition.

It is the role of the department of athletics to make rules that govern the spirit of competition for the school district. These rules need a broad basis of community support, which is achieved only through communication to the parent. It is our hope to accomplish this objective through this athletic publication for students and parents.

To the athlete:

Being a member of a West Mifflin Area School District athletic team is a fulfillment of an early ambition for many students. The attainment of this goal carries within certain traditions and responsibilities that must be maintained. A great athletic tradition is not built overnight; it takes the hard work of many people over many years. As a member of an interscholastic squad of the West Mifflin Area School District, you have inherited a wonderful tradition, which you are challenged to uphold.

Our tradition has been to win with honor. We desire to win, but only with honor to our athletes, our schools, and our community. Such a tradition is worthy of the best efforts of all concerned.

It will not be easy to contribute to such a great athletic tradition. When you wear the colors of blue and gold, we assume that you not only understand our traditions, but also are willing to assume the responsibilities that go with them. However, the contributions you make should be a satisfying accomplishment to you and your family.

- **Responsibilities to Yourself:** The most important of these responsibilities is to broaden and develop strength of character. You owe it to yourself to derive the greatest benefit from your high school experiences.
- Your academic studies, and your participation in other extracurricular activities as well as sports, prepare you for your life as an adult.
- **Responsibilities to Your School:** Another responsibility you assume as a squad member is to your school. West Mifflin Area School District cannot maintain its position as having outstanding schools unless you do your best in the activity in which you engage.

By participating in athletics to the maximum of your ability, you are contributing to the reputation of your school.

- You assume a leadership role when you are on the athletic squad. The student body and citizens of the community know you. You are on stage with the spotlight on you. The student body, the community and other communities judge our schools by your conduct and attitude, both on and off the field. Because of this leadership role, you can contribute significantly to school spirit and community pride. Make West Mifflin Area proud of you, and your community proud of your school, by your consistent demonstration of these fundamental ideals.
- Responsibility to Others: As a squad member you also bear a heavy responsibility to your home. If you never give your parents anything to be ashamed of, you will have measured up to the ideal. When you know in your heart that you have lived up to all of the training rules, that you have practiced to the best of your ability everyday, and that you have played the game “all out”, you can keep your self-respect and your family can be justly proud of you.

The younger students in the West Mifflin Area School District are watching you. They will copy you in many ways. Do not do anything to let them down. Set good examples for them.

Philosophy

Competitive athletics play an integral part in the educational program at West Mifflin Area School District. The challenges associated with competition create learning experiences for all athletes. A player's drive, determination, confidence, mental toughness, and emotional control are tested daily. The educational value of athletics lies in how the athlete copes with these challenges. Coaches stress commitment, dedication, and hard work and work closely with the players as they face these obstacles. Athletes are taught a formula that can be applied to real-life situations: They learn to plan, prepare, perform, evaluate, and try, try again.

All students, including seniors, compete equally for playing time. Pre-season practices and scrimmages provide an opportunity for players to demonstrate what they can do. Coaches select the best players and field their most competitive starting lineups. Titan teams play to win, but coaches do try to balance what is good for the team and what is good for the individual player.

Sportsmanship

Student-athletes who are good sports are positive role models within our school and the community at large. A good sport knows that athletic competition builds character and shapes lifetime attitudes. You, in turn, experience additional educational and leadership benefits that come from participation in sports.

Integrity, fairness, and respect - these are the principles of good sportsmanship. With them, the spirit of competition thrives, fueled by honest rivalry, courteous relations, and graceful acceptance of the results.

Working to that end, we join with the PIAA to support a program called “Sportsmanship: The only missing piece is you!” This is a program designed to positively change behavior in our schools and

reinforce and reward the need for sportsmanship as one of the values taught through educational athletics.

As an athlete at our school, your sportsmanship goals should include:

- Developing a sense of dignity under all circumstances;
- Respecting the rules of the game, the officials who administer the rules, and their decisions;
- Respecting opponents as fellow students and acknowledging them for striving to do their best while you seek to do your best at the same time;
- Looking at athletic participation as a potentially beneficial learning experience, whether you win or lose;
- Educating other students and fans to understand the rules of the contest, and the value of sportsmanship;
- Accepting the personal responsibility that comes with your actions during competition.

You are the spokesperson for our school when you represent us in athletic competition. Family and friends, opposing fans, the local community, and media view your actions. Your display of good sportsmanship will show the most positive things about you and our school and will remind us all that in the end, sports is meant to be fun.

West Mifflin Area School District Athletic Department *Coaches' Information*

Coaches' General Information

Golden Rule

The purpose of West Mifflin Area Co-curricular activities is to reinforce the school district's mission in educating the whole student, mind, body, and soul. A student must first commit himself/herself to achieve academically before they are able to assume the responsibilities of a student-athlete. It is in the best interest of the students and district that all our coaches emphasize the importance of achieving in the classroom first. **At no time will athletics be elevated above any academic endeavor that a student may be involved with during their season.**

All head coaches are mandated to attend their pre-season rules interpretation meeting as prescribed by the PIAA. The athletic office will notify the head coach as to the date the meeting is taking place to ensure the coach is aware and can plan accordingly. If a head coach does not attend the meeting, he or she will be financially responsible for the fee or face disqualification from coaching by the PIAA.

Intra-School Rivalry

A coach should encourage pride within his/her team, but this should never be developed by belittling another sport. Every team needs to be supportive of all the other athletic/co-curricular activities that take place at WMASD.

Athletic Programs and Personnel Complaint Procedures

Complaints concerning district athletic programs and personnel are welcomed when motivated by a sincere desire to improve the quality of the athletic program and to perform tasks more effectively.

Personnel or Program Complaints

1. Complaints regarding an individual coach must be made directly to the Head Coach by the complainant. Every effort should be made to resolve the problem at this stage.
2. Complaints not resolved with the Head Coach must be submitted in writing to the Athletic Director.

The written complaint must contain the following:

- The name of the coach or the specific sport, level of competition, and/or the general athletic concern involved.
- A brief but specific summary of the nature of the complaint and the facts surrounding same.
- The complaint must be signed by the complainant.

Note: Because playing time and level or position placement are the sole responsibility of the coach, complaints regarding these items will not be heard beyond the Athletic Director.

3. For complaints not tied to a specific situation, the first contact for concerns about any phase of the athletic program is the Athletic Director. This may be done either verbally or in writing.
4. Complaints not resolved with the Athletic Director will be referred to the school's director in charge of Athletics for resolution. The director in charge of Athletics shall receive a copy of the written complaint and a written report of the efforts made to resolve the problem. The complainant shall receive a written response.
5. Complaints not resolved by the school's director in charge of Athletics and/or the principal may be referred in writing to the Superintendent for study and resolution.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

6. Complaints not resolved by the Superintendent may be referred to the Athletic Committee. This meeting will be arranged through the Superintendent or his/her designee. The Committee's ruling will be final.

The Chain of Command

The Chain of Command from the first step to the last is as follow:

- Step one - Head Coach
- Step two - Athletic Director
- Step three - Building Principal
- Step four - Superintendent
- Step five – Athletic Committee

Note: if the complaint procedure is not followed the complainant will be redirected to the proper step in the chain of command to have their situation resolved.

HIPPA

Coaches, you are reminded to follow the guidelines of the district's HIPPA policy pertaining to our student-athletes. You are not permitted to discuss or name students and/or their injuries to any other persons except the student-athlete's parents/guardians. The policy is in the board policy.

Athletic Team Limited Roster Notification

The West Mifflin Area School District stresses the importance and the optimistic role that interscholastic athletics plays in the development of a positive school climate. It is the desire of the WMSB that our athletic program support as many athletes as possible. The coach will determine the number of student-athletes that he/she are able to manage and to reach the highest level of instruction. We realize that at times we have an excessive number of young people come out for a particular sport that by their nature requires only a small number of participants. We want to make all parents aware of the limited roster situation. We as a district will make every attempt to avoid limiting rosters, but the possibility exists that at times this will be unavoidable.

Playing Time

There are many benefits to be gained by participation in athletics at the high school level. Athletes learn discipline, to perform under stress, teamwork, sacrifice, commitment, effort, accountability, sportsmanship, confidence, leadership, and to play within the rules. Although there are many measures of success in the minds of each athlete, perhaps the most emotional is “playing time” during games. If an athlete has a question about the amount of playing time he/she is getting, he/she should be encouraged to discuss it with the coach. Being a member of a team at West Mifflin Area High School does not guarantee “playing time,” but there are some guidelines:

- **Freshmen and Junior Varsity Teams**

This is the developmental level where athletes learn skills and strategies to prepare them for varsity competition. The coaching staff will play all team members for as much time as is practical. There are many factors that govern an individual’s playing time. Some of the most important are: attendance at practice, effort, attitude, commitment, and athletic skill. This is the level for athletes to show their potential and demonstrate to the coaching staff that they are ready for varsity level competition.

- **Varsity Teams**

This level of competition has the same factors and guidelines as the sub-varsity teams. However, there is one additional major factor. The varsity teams compete against opponents at the highest

WEST MIFFLIN AREA ATHLETIC HANDBOOK

possible level. There is a greater emphasis on winning. To reach this goal, the most competitive, skilled team members will get the most playing time. However, teams cannot be successful without committed substitutes or “second string” players. These athletes have to be ready to step up when needed, and practice hard to help make the team as competitive as they can be. They should constantly strive to move up to the “starting” role. There are many decisions made by the coaching staff during the course of a season. These include which athletes should be starters, who should play what position, and how long each athlete should play. These decisions, often difficult to make, are made only by the coaching staff, and are approached with the best interest of the team as the top priority.

Procedure of Awarding Athletic Lettering

Basic rules that apply to all prospective athletic letter award candidates:

1. All athletic programs within the school district must comply with all rules and regulations set forth by the West Mifflin Area School District.
2. An athlete must display sportsmanship and conduct which exemplifies the school to his/her opponents, teammates, and officials.
3. An athlete must conform to all the training rules established by the coach for that given sport.
4. An athlete must have conformed to practice and game regulations as established by the coach in that sport.
5. The athlete must have returned all the equipment issued to the student to the satisfaction of the coach and/or Athletic Director.
6. In the event of injury or any other legitimate extenuating circumstances, letter awards will be made on the recommendation of the coach to the Athletic Director.
7. If the person has earned and been awarded a letter and his/her conduct and behavior has been unbecoming, the award letter can be taken away.
8. Each participant must satisfactorily complete the season, including individual and team post season competition.
9. Additional requirements for earning a letter will be determined by the Head Coach. The coach will file with the athletic director these requirements prior to the start of the season.

Team Captains

It is a coach’s decision how team captains are chosen. They may be elected by the team or appointed by the coach prior to the first regularly scheduled event. Captains may also be appointed on a game-by-game basis.

It is expected that team captains be leaders of their team. Captains are expected to assist the coaching staff by promoting team rules, and communicating with coaches about problems that arise that could affect the team.

Captains of a team may be relieved of their position for violating team, athletic department, school, or PIAA rules.

Tryouts

Participation in athletics is a privilege given to those students who meet all requirements set by the PIAA and the West Mifflin Area School District. Students try out voluntarily and, in doing so, risk being cut. It is the judgment of the coaches that dictates the selection and number of participants for teams. All

WEST MIFFLIN AREA ATHLETIC HANDBOOK

student-athletes should be aware that selection to a team one year does not guarantee placement on that team the following year.

Please note that selection to a team is a coach's discretionary responsibility. Selection to a team represents a culmination of both physical ability applicable to the sport and level of competition, and

positive effort. Each coach has the discretionary right to promote a player or not select a player based upon attitude and effort displayed by an athlete.

It is the belief of the West Mifflin Area Athletic Committee that there are certain sports that can not support the number of student athletes that are interested so the coach will utilize a rating system to reduce the number of participants to a manageable number. The rationale for cutting students is many but the main factor is playing time and manageable number of students. Any coach utilizing a cutting system will meet with the student athletes and parents to explain the rating process, who are raters, and the specific skills that the raters are looking for.

Time Limit for Students to Participate

It is the belief of the West Mifflin Area Athletic Committee that no student may join a team after the first two weeks of the season. If a student athlete can not determine at the onset of the season to commit themselves to a team then the student athlete will not be permitted to join the team once the coach has his/her team in place and ready for the season.

Team Classification

Varsity – Varsity team competition is available to any eligible high school student skilled enough to make the team.

Jr. Varsity – Junior Varsity competition is for those athletes who at their present development are not skilled enough for varsity competition.

Freshman – Must be ninth grade athletes only.

Athletes may be moved from one team to another within the limits of the above statements and providing they do not violate PIAA regulations on participation limitations as set forth in the PIAA Handbook.

Procedures for Locker Room Usage

The district has extended the privilege to all athletic teams the use of the locker rooms and facilities within the district. However, there are concerns with the security level of our locker rooms. The administration, in conjunction with the Athletic Director, has put in place procedures for securing the locker rooms.

- Coaches need to make certain that the doors are **locked** at all times when you and your team are not in the locker room.
- Remind each student to purchase a lock for their locker in the team room and/or the locker room itself.
- As you exit the locker room to the practice facility make certain that all doors are locked because access to the area is accessible from the loading dock.
- Reinforce to all student athletes not to bring any valuables to practice but if they do so, develop a procedure for securing the valuables.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

- Emphasize to all student athletes that the school district is not responsible for any stolen or lost items.

These procedures should be carried out during all practices and games that take place within the confines of the West Mifflin Area High School.

Procedures for Locker Room Usage at Away Contests

Coaches are directed to inspect all locker room facilities at away venues for any damage or vandalism before allowing your team to enter the facility. This practice is to protect yourself and your team from being falsely accused of an act that you and your team had no part in doing. In the case that you do find some discrepancies with the facilities:

- Report your findings to either the host school's Athletic Director or Head Coach.
- Write the discrepancies down and have the person you reported the situation to sign the note to acknowledge the discrepancies.
- Report the incident to your Athletic Director upon your arrival back to West Mifflin Area High School.

If this procedure is not followed and the district receives a complaint and/or bill for damages caused by our team, the Head Coach will be held directly responsible for the damages.

Scouting

One scout will be paid the negotiated contract mileage fee per round trip transportation to scout. Mileage is based on the school as the starting and ending point for all traveling expenses.

Coaches' Facility Use

Coaches are reminded that they must turn in the proper request forms to use the facilities in the off season. If a particular team requests the use of an area or training facility, that team/organization has exclusive rights to it for the entire time they have designated on the request form.

[Back to Table of Contents](#)

Student Quitting

If a student athlete does not attend practice or contest for two consecutive days it will be considered the student athlete has resigned his privilege to participate on the team. Each incident will be reviewed by the coach for consideration for the student to return to the team. If the situation constitutes a meeting with the Athletic Director and/or high school administration, documentation has to be provided as to why the student athlete was unable to participate in order for the student athlete to be considered for reinstatement to the team. A student may be reinstated to the team only by the coach; the school administration will offer no direction to coaches on this matter.

Home Educated Student Athletes

Home-educated student athletes may not participate in the West Mifflin Area School Districts Athletic Programs. However, student athletes who are enrolled in an outside educational program may participate in the athletic programs offered at the West Mifflin Area School District provided they are a resident in the district and arrangements have been made through the high school office to receive weekly grades on the participating student for eligibility reasons.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

Scheduling Contest

The Athletic Director will schedule all contest and events. Coaches do not have the authority to schedule their own contest or alter the pre-existing schedule. Any change to a existing schedule must be done with a 24 hour notice.

Coaches Leaving a Venue

Any coach removing their team from a contest without conferring with the game officials, Athletic Director, and/or game manager will be disciplined accordingly. It is the intention of the West Mifflin Area Athletic Department to complete any contest that our teams enter in. If a problem arises that you as the coach feels jeopardizes the health, safety, and welfare of student athletes, coaches will abide by the following protocol:

- Talk to the game official to voice your concern
- If the situation is not in the field of play request to talk with the game manager/AD.
- Discuss what you need done to secure your athletes' safety.
- Immediately upon your return to West Mifflin Area High School Campus please complete an Incident Report stating all the pertinent information and hand deliver it to Mr. Licht, Mr. Stephenson, and Mr. Soles.
- One of the three individuals named above will take your complaint and investigate the situation to resolve the incident so that all parties can be assured that the incident does not occur again.

Removing a team from the field of play is unsportsmanlike and one of the poorest examples a coach can give his/her team. No school, athletic organization, or athletic director can condone this type of behavior. Only the mutual agreement of the teams, the game management, and the officials can terminate a game and then, only in extreme circumstances. A unilateral decision of this kind can cause the coach, the school, and/or the team to be sanctioned or suspended from further competition.

Coaches at the conclusion of every contest

It is the intention at the conclusion of every contest that our coaches and participants demonstrate proper sportsmanship by shaking hands. It has been a long-standing tradition, at the conclusion of any contest the participants form a line and shake hands to congratulate the victor and console the loser. If at any time a coach denies their team the opportunity to shake hands with their opposition he/she will be held responsible for not demonstrating proper sportsmanship.

Appropriate Attire

Students need to be properly dressed while at practice and/or conditioning. This relates to every person participating must wear a shirt that covers their body. Sports bras are not considered a shirt. There will be no shirts against skins games during any practices. Coaches are to order scrimmage shirts for their respective teams.

Ordering and Purchasing

Coaches are not to contact vendors directly, all purchases must be approved by the Athletic Office prior to the order being placed. General bid lists are distributed during the spring, there is no expectation that

WEST MIFFLIN AREA ATHLETIC HANDBOOK

the items on the bid will be ordered. If an order is submitted without prior approval it will be the responsibility of the coach to pay the invoice.

Player/Parent Information Meetings

Coaches will conduct a pre-season meeting with parents and players to give ample notification of tryout and booster club information. Coaches should have all eligibility paperwork available for these meetings and be prepared to answer any questions. Parents should be given the season schedule, expectations for behavior, and the time commitment involved with the sport.

Uniforms/Equipment Procedures

Head Coaches are required to distribute and collect all equipment issued to the student-athletes. The Head Coach is responsible for logging all the equipment issued to the student-athletes to ensure the equipment is accounted for at the end of the season. The Head Coach is required to give a copy of their equipment list to the Athletic Director after the equipment is distributed to the team.

Immediately upon the conclusion of the season the Head Coach will have all equipment returned and in storage. At this time all the equipment needs to be inventoried and a list of all students owing equipment should be recorded and a copy given to the Athletic Director. It is your responsibility to make sure student-athletes return all equipment issued.

Note: Remind all student-athletes that they are financially responsible for the equipment they are issued.

Expectations for West Mifflin Area Athletes

Coaches and Director are expected to discipline athletes who choose not to maintain these standards. A player who is not able or willing to consistently live up to these expectations will lose his/her right to participate as a West Mifflin Area athlete.

SUCCESSFUL TEAMS HAVE TEAM UNITY – To contribute to TEAM UNITY,

West Mifflin Area's Athletes are expected to:

- Attend every practice and be on time
BECAUSE practice time missed hurts the entire team!
- Be supportive of coaches and teammates
BECAUSE seeds of discontent often grow into major problems!
- Accept your assigned role as a team member
BECAUSE expressing dissatisfaction divides the team!
- Ride together to and from games
BECAUSE teams experience winning and losing together!

SUCCESSFUL TEAMS HAVE CONDITIONED ATHLETES – To become HIGHLY

CONDITIONED, West Mifflin Area's athletes are expected to:

- Commit to abstinence of alcohol, tobacco, or drugs
BECAUSE substance abuse dulls senses and slows reflexes!

ATHLETE'S CREED

I, _____, wish to participate in the athletic program provided by the West Mifflin Area High School. I realize that this is both an honor and a privilege.

I have read and will uphold the Athletic Training Rules. As a team member, I represent this organization and realize my conduct reflects not only myself, but my school, coach, teammates and family. I realize that being an athlete is a full-time responsibility and does not end when I leave the match or training session.

I am aware that the coaches will keep an attendance record of my involvement with this team. I understand that there will be consequences for missing practice(s) or games that will be outlined by the coach.

I will keep myself groomed in a fashion outlined by the coach. The coach will discuss with the team and myself what will be acceptable when a member of this team is representing the school and community.

I understand that I am responsible for my uniform and will turn it in at the end of the season in clean condition.

I realize that once I earn a position on a team, I may not switch to another sport during that season. If I quit a team, I realize that I forfeit all privileges for awards and may jeopardize my chances for future participation.

I realize that any violation of the "Athlete's Creed" will result in disciplinary action as outlined in the Athletic Training Rules and that four (4) offenses throughout grades 9-12 deem me ineligible for the remainder of my years at West Mifflin Area.

Co-Curricular Rules and Regulations

The purpose of the following regulations is to promote, protect and conserve the health and physical welfare of the student who participates in the co-curricular programs of the West Mifflin Area School District, to safeguard the educational values of these programs, and cultivate high ideals of good sportsmanship. The goals of the co-curricular programs are the life enrichment of each participant through the development of skills, health, strength, self-reliance, emotional maturity, social growth, and good sportsmanship.

The following co-curricular and interscholastic athletics rules and regulations are in effect for all students when the listed, prohibitive activities involve school-related activities, school property, or school personnel.

All suspensions from "organized school groups" will be consecutive school days during the current and/or next subsequent co-curricular or interscholastic activities in which the student participates. When there are not enough consecutive school days remaining in the school year to complete the number of required days of suspension from OSG, the suspension will carry over to the first and subsequent activities in which the student will be involved in the following year.

1. Possession or use of tobacco is prohibited:

First Offense	Two (2) days alternative education placement. Refer to magistrate
Second Offense	Five (5) days alternative education placement Refer to magistrate
Third Offense	Ten (10) days alternative education placement Refer to magistrate
Continued Offenses	Refer to magistrate; Discipline at discretion of administration
2. Student involved in the purchase, consumption, possession, or transportation of alcoholic beverages or illegal drugs, including anabolic steroids, may result in a 90-day suspension from OSG. The SAP Team and administration may review a student's progress at the 45th day of suspension from OSG and make a recommendation to the School Board to reduce or maintain the OSG Suspension.
3. Stealing of equipment (West Mifflin Area's or anyone else's equipment) may result in suspension from all athletics for the period of one year.
4. Any participant arrested by the police and convicted of a criminal act or any participant who is making restitution for vandalism in relationship to school property, activities, or school personnel, may be suspended from all athletics for the period of one year.
5. Cutting class may result in a three (3) day suspension from the team.
6. Any participant absent from school will not be permitted to participate on that day. Students not in attendance by 11:30 a.m. may not be permitted to participate.
7. The use of obscene language will not be tolerated. The individual coach may handle the punishment.
8. Any participant who drops out of an OSG or athletic team before the end of the season to participate in another program other than a high school or middle school program may be suspended from that program the following season.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

9. Any participant, who drops out of an OSG before the end of the season to participate in an OSG within the high school, must have the consent of the coach/sponsor of both OSG's.
10. A student suspended from high school is automatically suspended from participation in all school activities during the period of suspension.
11. A coach/sponsor may include other regulations pertaining to his/her OSG with the approval of the Board. Participants will be notified of the regulations in writing (signed by player and parent/guardian).
12. These rules will be in effect from the time a student is in seventh grade until the end of all interscholastic athletics and all co-curricular activities in the 12th grade.
13. Students participating in any OSG must remember that they represent the school and the community and should conduct themselves in a manner befitting this responsibility.
14. A pupil, who has been absent from school during a semester for a total of 20 or more days, shall not be eligible to participate in any OSG until that student has been in attendance for a total of 45 school days following his 20th day of absences; except where there is a consecutive absence of five or more school days, due to a confining illness, injury, or quarantine, such absence may be waived from the application of this rule by the P.I.A.A. district committee if a thorough and complete investigation warrants such waiver. Attendance at summer school does not count toward the 45 days required. Absence from school for an entire semester, or for several semesters, shall disqualify a pupil for the same period as stated before.
15. In order to be eligible for OSG, a pupil must have passed at least five full credit subjects or the equivalent during the previous grading period. Back work may be made up providing it is in accordance with the regular rules of the school.

Note: Students are required by the PIAA to be in attendance for at least a half of the school day even with an excuse from the healing arts community. Other reason may be reviewed by the building Principal for possible exception for circumstances that are not outlined in the handbook.

Individual Coach's Rules

Coaches may establish additional rules and regulations with the approval of the athletic director for their respective sports. These additional rules for a particular sport must be stipulated in writing to all team members and parents and explained fully at the start of the season. Penalties for violation of team rules will also be in writing and shall be administered by the coach. Copies of all additional team rules by coaches are on file on the athletic office.

Age Rule

Any student-athlete reaching the age of 19 before July of the current year will be deemed ineligible from participating in all interscholastic sports for the school year.

Semester Rule

A student athlete will not be permitted to participate in interscholastic sports if he/she has:
Been in attendance more than eight semesters beyond their eighth grade.
Played four seasons beyond their eighth-grade year in any one form of interscholastic sport.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

Amateur Status

In order to be eligible to participate in an interscholastic athletic contest a pupil must be an amateur in the sport involved. An amateur is one who engages in athletic competition solely for the education, physical, mental, social, and pleasure benefits derived thereof.

For more information on Amateur status please refer to the PIAA Handbook, section dealing with eligibility.

Insurance and Physicals

The school shall require of each student participating in athletics a physician's certificate stating that he or she is physically able to participate in tryouts and/or athletic contests of his or her school. The necessary form will be available to the student athlete by their coach, Nurse, and/or Athletic Director and must be turned in before a tryout can take place. One physical is required per sport. *I.e. if you play football, you will also need a physical for basketball if you choose to play.*

- Families may purchase school insurance to provide coverage for their student-athlete.
- No student will be allowed to try out for any sport without a completed physical exam form.
- The school will arrange physicals on a specific day, if the student-athlete does not attend on that day he/she must arrange their own physical (family doctor) in order to compete in that sport.

Ejection Policy – Ejected Player or Coach

If a player or coach is ejected by an official for an unsportsmanlike act, both the athletic director of the school of the ejected player/coach and the commissioner of officials shall notify the PIAA by FAX of the ejection by the next work day. Ejected coaches must leave the contest immediately and shall not be allowed further contact with team members for the duration of that contest. It shall be the responsibility of the school to disallow the ejected player or coach from participating in the next scheduled contest. Should an ejected player or coach participate at the next scheduled contest, that action shall be considered use of an ineligible participant and shall result in forfeiture of that contest and other penalties as determined by the School Board.

Uniforms/Equipment Policies

Whenever possible, it is the goal of the West Mifflin Area Athletic Department to reduce additional costs to families by providing school-owned uniforms and equipment for students. School ownership permits a higher level of assurance that equipment, especially protective equipment, meets national safety standards. If families own protective equipment it is their responsibility to maintain it at this standard.

School owned equipment

1. School-issued and owned equipment must be returned in good condition, washed and ready to be used again on the schedule indicated by the coaching staff of each sport.
2. Some equipment that is purchased by the athletic department is not available for resale to students, and in some cases is custom made and must be ordered in quantity.

Lost equipment or equipment not returned

1. Coaches will establish dates and locations for the purpose of returning school-owned equipment back to inventory. Lost or damaged equipment will be charged at a rate of 125% of initial cost to cover the additional expense of ordering in limited quantities.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

A credit will be issued and a \$25.00 late charge will then be applied to students who turn in equipment thirty days or more past the final deadline set by their coaching staff for return of equipment.

Students who do not return their uniforms/equipment in the time frame allotted will have an athletic obligation placed on their record and the athletic department will view this event as a theft. Students will not receive their report cards and parents will lose their access to PowerSchool to view their child's grades and homework assignments until the obligation is paid. Stealing of equipment (West Mifflin Area's or anyone else's equipment) may result in suspension from all athletics for the period of one year. (as per code of conduct)

Eligibility

A roster submitted by the coach will be used to send our eligibility to the other schools that we compete against.

All athletes have their academic progress checked weekly during their season. The 1.5 list will be generated every Friday at noon by the assistant principal. The assistant principal will send out the 1.5 list and also notify the student-athlete. Athletes declared ineligible will not be permitted to play from Sunday at 12:00am through the end of the next Saturday at 11:59pm.

****Any student-athlete who is ineligible for 3 consecutive weeks will be removed from the team for the remainder of the school year.**

Student Athletes will not be permitted to:

- Practice during the week they are deemed ineligible,
- Compete in any games, and
- Attend the competition(s) in uniform or with the team.

An athlete who is absent from school will not participate in a scheduled game that day unless the athlete has pre-approval from the principal. All student athletes must be in school by 11:30 AM or they will be ineligible for practice or games that day. WPIAL states that a student must be in attendance for a half day with an excuse from a member of the healing arts community.

In order for students to be excused from classes during the school day for athletic events, they must be present in school from the beginning of the school day.

An athlete may be declared ineligible at any time by the school board, school superintendent, or school principal for any behavior or conditions which may warrant such action after such behavior or conditions have been reviewed by the director, the athletic director, and the head coach of the activity involved.

Time Limit for Students to Participate

It is the belief of the West Mifflin Area Athletic Committee that no student may join a team after the first two weeks of the season. If a student athlete can not determine at the onset of the season to commit themselves to a team then the student athlete will not be permitted to join the team once the coach has his/her team in place and ready for the season.

Over the Counter Drugs

WEST MIFFLIN AREA ATHLETIC HANDBOOK

Coaches are not to dispense any type of over the counter drug for any reason. The only person permitted to dispense these types of medication is the school nurse and only after she receives the proper authority from the parent/physician. If a student-athlete is suffering from some type of injury that requires him/her to use any type of medication, they will need to follow the guidelines in the student hand book. Coaches are not permitted to promote the use of any performance enhancement drugs for student-athletes. Coaches will encourage the student-athletes to raise their level of play through work ethic, commitment, and self-confidence are the proper ways to build their bodies and minds. Coaches will make student-athletes aware of the harmful side effects that can be caused by using such products as creatine, weight-gaining supplements, and/or steroids. Coaches will also discuss with student-athletes the importance of nutrition and diet in their pursuit of maximizing their talents. As always, the most prudent information relative to diet and nutrition can be obtained form the student-athlete's family physician.

Transfer Students and Foreign Exchange Students

ARTICLE VI

TRANSFERS AND RESIDENCE

Preamble

The intent of this ARTICLE is to deter transfers and recruiting which are, either in whole or in part, for any athletic purpose.

The approach recognizes that, due to the large number of transfers each year, it is impossible to carry out that intent if an individualized determination must be made as to why each student transfers. The Board of Directors therefore determined which circumstances of transfer have relatively little risk of an athletic purpose or recruiting, and which have relatively greater risk. This ARTICLE therefore identifies numerous circumstances, in Sections 3 through 7, under which a transferring student is eligible immediately, as those circumstances are unlikely to involve transfers for an athletic purpose.

Likewise, certain transfers do not result in immediate eligibility, as the possibility of an athletic purpose is greater. Some of these cases result in partial eligibility, and some result in ineligibility. Finally, where the evidence warrants, a student may be declared fully eligible if it is determined as a fact at a hearing that the transfer was not a result of any athletic purpose, or the student may be declared fully ineligible if it is determined as a fact at the hearing that it was.

Section 1. Definition of Transfer.

A transfer occurs in any situation in which a student enrolls at or attends a school after having previously been enrolled at or attending any other school, without regard to the time interval between the student's departure from the one school and the student's arrival at the other. A fall sport student who enrolls at a school between the end of a school year and the first practice day of fall sports for the next school year, as established under ARTICLE XVI of these By-Laws, who neither practices with nor attends that school, and a winter or spring sport student who enrolls at a school between the end of a school year and the beginning of the next school year, who does not attend that school, shall be deemed for purposes of this ARTICLE VI not to have transferred to that school.

Section 2. Private School's School District.

For purposes of transfers between school districts, each private school, including each feeder school which is part of a junior high school pursuant to Section 12 of this ARTICLE, shall have its own "school district." A private school's "school district" shall have as its boundaries the boundaries of the public school district in which it is geographically located. The private school district and the public school district shall be separate school districts.

Section 3. Transfer from One School District to Another.

A student transferring from one school district to another is eligible immediately:

- A. When the student moves with and resides with the student's natural parents or with either parent in the school district to which the student transfers. A student whose parents are separated, who has more than one transfer from a school district where one natural parent resides to a school district where the other natural parent resides, shall have the student's eligibility determined under Section 9. If, upon the separation of the student's parents, the student accompanies the parent departing from the family residence, a transfer to a school in the school district in which the departing parent establishes residence shall not be treated as a transfer from a school district where one natural parent resides to a school district where the other natural parent resides.
- B. When the student has been legally adopted and the student moves with and resides with such adopting parent within the school district. If such action is pending, the student will be eligible when such eligibility is approved by the District Committee. A student whose adopting parents are separated, who has more than one transfer from a school district where one adopting parent resides to a school district where the other adopting parent resides, shall have the student's eligibility determined under Section 9. If, upon the separation of the student's adopting parents, the student accompanies the adopting parent departing from the family residence, a transfer to a school in the school district in which the departing adopting parent establishes residence shall not be treated as a transfer from a school district where one adopting parent resides to a school district where the other adopting parent resides.
- C. When a legal guardian has been appointed by order of a Court of Common Pleas and the student moves with and resides with such guardian within the school district, and the student's eligibility is approved by the District Committee. If the appointment of a legal guardian is pending, the student will be eligible when such eligibility is approved by the District Committee.
- D. When the student moves with and resides with foster parents, with the approval of the local child welfare organization, and of the District Committee.
- E. When the student transfers to a new school district after completing the highest grade of the school district in which the student is enrolled.
- F. When the school where the student has attended is abolished and the School Board, or the Board having jurisdiction over that school, has not designated another school or schools in that school district to which the abolished school's students are to be transferred.
- G. When the student is enrolled at, and resides on the campus of, a boarding school. (NOTE: This relates only to transfers. Students who are placed by court order or as a result of disability must still meet the applicable requirements of ARTICLE III, Sections 1 and 7.)

Section 4. Students Residing Only in Public School District.

A student who would be eligible upon transfer to a public school under Section 3A, 3B, 3C, or 3D of this ARTICLE, who is not thereby eligible at a private school for the reason that 13 2004-2005 BY-LAWS

Section 5. Emancipated Students.

An Emancipated Student whose situation is not otherwise within the terms of this ARTICLE shall be eligible immediately in the school district to which the student transfers, upon determination by the District Committee that the student has established a bona fide residence in such school district.

Section 6. Transfers Within A School District.

An eligible student transferring within a school district is eligible immediately when the student is transferred by executive action for administrative purposes other than disciplinary reasons. In all other

WEST MIFFLIN AREA ATHLETIC HANDBOOK

cases of transfers within a school district, the case shall be referred to the District Committee for determination.

Section 7. Promotion.

A student becomes eligible immediately for interscholastic athletics if the student:

1. has been promoted from a junior high/middle school to a high school in the same school district;
2. has been promoted from the eighth grade of a Catholic junior high/middle school to the ninth grade of a Catholic senior high school which is designated by the Diocesan Superintendent as a school to which students from the junior high/middle school are sent;
3. has completed the highest grade of a private junior high/middle school and without a change of residence, has enrolled in a public high school in the students' home district for the next school year;
4. has completed the highest grade of a public or private junior high/middle school and has enrolled in a private high school for the next school year;
5. has enrolled in the lowest grade of a public high school for the next school year, after having completed the previous grade at a private junior high/middle school; and/or
6. has enrolled in the lowest grade of a private high school for the next school year, after having completed the previous grade at a public junior high/middle school.

Section 8. Ineligible Students.

A. Except as otherwise provided in this Section, a student who is not eligible under a Section of this ARTICLE shall be ineligible to participate in each sport in which the student participated within a period of one year immediately preceding the date of transfer.

B. The District Committee may waive ARTICLE VI, Section 8A in cases where the Principal of the sending school and the Principal of the receiving school inform the District Committee having jurisdiction over the receiving school, by completing and executing the official PIAA form entitled "PIAA Athletic Transfer Waiver Request", and orally at a hearing (if the District Committee having jurisdiction over the receiving school convenes a hearing into the transfer), that each believes that the transfer was not in whole or in part for any athletic purpose and was not a result of recruiting.

Section 9. Purpose and Intent of ARTICLE: Transfers for Athletic Purpose.

Notwithstanding the provisions of Sections 3 through 8 of this ARTICLE, a District Committee may, after giving notice to the student's school and an opportunity to be heard to the student and the student's school, declare any transferring student ineligible to participate in each sport in which that student participated within a period of one year immediately preceding the date of transfer, if the Committee finds that eligibility would circumvent the intent of this ARTICLE, part of which is to deter transfers which are, either in whole or in part, for any athletic purpose. A student who is not otherwise eligible under a Section of this ARTICLE may be declared eligible by a District Committee if, following a hearing, it finds that the transfer was not, in whole or in part, for any athletic purpose. A student who transfers during the one-year period of ineligibility shall remain ineligible, in the applicable sports, until the conclusion of that year, unless the student is declared eligible under the immediately preceding paragraph. The following is an illustrative, but not exhaustive, list of situations which may indicate athletic purpose:

1. The student, or a parent or guardian, or an adult with whom the student resides, is dissatisfied with the student's position or the amount of playing time which the student receives.
2. The student, or a parent or guardian, or an adult with whom the student resides, has a problem with a coach at either a personal or professional level.
3. The student, or a parent or guardian, or an adult with whom the student resides, seeks relief from conflict with the philosophy or action of a director or teacher relating to sports.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

4. The student, or a parent or guardian, or an adult with whom the student resides, seeks to avoid or nullify the effect of action by the previous school relating to sports eligibility.
5. There is no team in the particular sport at the school from which the student has transferred.
6. The student follows the student's coach to another school to which the coach has transferred.
7. The student, or a parent or guardian, or an adult with whom the student resides, desires that the student play on a less successful or lower profile team in order to be ranked higher among the students on that team.
8. The student, or a parent or guardian, or an adult with whom the student resides, desires that the student play on a more successful or higher profile team to gain a higher level of competition and/or more exposure to college scouts.
9. The student moves with one parent, one guardian, or one or more siblings, into a rented residence in the new school district, especially where the student and/or the parent, guardian, or sibling returns to the family home in the evening and/or on weekends.
10. The student, or a parent or guardian, or an adult with whom the student resides, seeks out athletic personnel at the transferee school.

Section 10. Recruiting.

One of the purposes of this ARTICLE is to deter recruiting which is, either in whole or in part, for any athletic purpose. Recruiting for athletic purposes is directly contrary to fundamental interests of PIAA and its member schools and any school engaged in such conduct should do so with the expectation that it will be treated harshly upon proof of such conduct.

Recruiting for an athletic purpose is contrary to the fundamental objectives of (1) keeping athletics in their proper place and subordinate to academics; (2) protecting student athletes from "exploitation" by adults and those having interests which might not be consistent with those of the student; and (3) maintaining competitive equity and a level playing field among member schools.

A. Upon a District Committee's receipt of:

1. a signed complaint which alleges that a representative of a school's athletic personnel, or any other person affiliated with the school, approached one or more students, or one or more parents or guardians of such student(s), or an adult with whom the student resides, for the purpose of influencing such student(s) to transfer to that school for the purpose, either in whole or in part, of participating in athletics at that school, or the school, its athletic personnel and/or individuals affiliated with the school in other ways engaged in recruiting of students, either in whole or in part, for an athletic purpose; or
2. credible information that a representative of a school's athletic personnel, or any other person affiliated with the school, approached one or more students, or one or more parents or guardians of such student(s), or an adult with whom the student(s) reside, for the purpose of influencing such, student(s) to transfer to that school for the purpose, either in whole or in part, of participating in athletics at that school, or the school, its athletic personnel and/or individuals affiliated with the school in other ways engaged in recruiting of students, either in whole or in part, for an athletic purpose, the District Committee shall give notice to the school of such complaint or information and shall convene a hearing to consider whether the school by itself or through its athletic personnel or other persons affiliated with the school, has engaged in recruiting which is, either in whole or in part, for any athletic purpose.

B. The following is an illustrative, but not exhaustive, list of situations which may indicate recruiting for an athletic purpose:

1. Placing an advertisement in a newspaper or other literature directed toward prospective recruits touting the athletic successes of a school's teams and/or students. NOTE: A comprehensive brochure or

WEST MIFFLIN AREA ATHLETIC HANDBOOK

comparable piece of literature discussing all or most aspects of the school, including the athletic program, will not be deemed to constitute recruiting for an athletic purpose.

2. Providing a student-athlete of another school, including a lower level school, with free transportation, tickets, or admissions to a contest, unless such free transportation, tickets, or admissions are made available to all students, or to all students at the same school, or to all students in the same grade level at the same school.

3. Using AAU or other amateur athletic coaches to steer students to a particular school.

4. Offering, to an athlete, scholarships or financial aid which is not available to other students at the school.

5. Encouraging the parents or relatives of an athlete to influence the student to enroll at a particular school to play sports there.

6. Promising playing time or a position on a team to a student.

7. Meeting with athletes of a school, individually or as a group, to encourage them to enroll at a particular school.

8. Providing transportation or other inducements to any prospective student-athlete to take a qualifying examination at a school or to meet with school officials, unless such opportunities are provided to all students at a particular school or grade level.

9. A coach, Athletic Director, or other employee or representative of a school's athletic department directly, or through another person, encouraging a student or the student's parents to have the student enroll at the school of the athletic personnel.

10. Providing any item with school advertisement (such as shirts, pennants, caps, jackets, etc.) unless such offer is made to all students of a particular school or class.

C. If the District Committee finds that the school, a representative of the school's athletic personnel, or any other person affiliated with the school, approached a student, or a parent or guardian of that student, or an adult with whom that student resides, and attempted to influence and/or influenced that student to transfer to that school, either in whole or in part, for any athletic purpose, or otherwise engaged in recruiting students, either in whole or in part, for an athletic purpose, the offending school will be subject to any of the penalties described in ARTICLE XIII of the PIAA By-Laws.

D. Any person determined to have engaged in recruiting, either in whole or in part, for an athletic purpose shall be disqualified from coaching any athletic teams of PIAA members for a period of at least one year.

Section 11. Students Who Remain in Present School Following Change of Residence of Student, Parents, or Guardian.

A student who remains in the student's present school after the student, the student's parents, legal guardian, or foster parents, as applicable, has changed residence to another school district shall retain the student's eligibility until the end of the school year in which such change of residence occurs. At the end of that school year, the student's eligibility will be reviewed by the District Committee. If, in the District Committee's opinion, participation by the student contravenes the intent of the By-Laws, the District Committee may declare the student ineligible.

Section 12. Private School Districts Containing More Than One School.

Any member private school may, upon application to and approval by the District Committee and the Board of Directors, include in its school district any lower level schools from which it receives students ("feeder schools"), as determined and approved by its governing authority. The application shall include a list of such feeder schools, none of which may be part of another private school's school district. That list shall be signed by the Principal and shall be certified as correct (a) in the case of Roman Catholic

WEST MIFFLIN AREA ATHLETIC HANDBOOK

schools under Diocesan jurisdiction, by the Diocesan Superintendent of Schools, or (b) in the case of other private schools, by the Superintendent or by the President of the Board having jurisdiction over the applicant school.

Upon approval of the application by the District Committee and the Board of Directors, this list shall constitute the private school's "School District" for purposes of the PIAA Constitution and By-Laws except transfers between school districts.

All feeder schools for which application is made for inclusion in the member private school's school district shall constitute a single junior high/middle school which must obtain a single junior high /middle school membership. PIAA shall recognize the Principal of the senior high school as the Principal of the junior high/middle school. Upon any change in its list of feeder schools that member school shall submit to the PIAA Office a list of those changes, signed and certified in the same manner as is required for a private school applying for inclusion of a feeder school in its school district. Any changes from the most recently approved list of feeder schools must be approved by the District Committee and the Board of Directors. Upon such approval, this list shall constitute the private school's "School District" for purposes of the PIAA Constitution and By-Laws except transfers between school districts.

Section 1. Period of Participation.

A student shall not represent the student's school in interscholastic athletics if the student has:

WEST MIFFLIN AREA ATHLETIC HANDBOOK

An individual who has received a G.E.D., who enrolls in school for the purpose of obtaining a high school diploma, and who returns that individual's G.E.D. to the G.E.D. Office, is eligible to participate in interscholastic athletics provided the student is eligible in all other respects.

INTERPRETATION

Section 1. October 4, 2003.

A US Department of State-issued Certificate of Eligibility for Exchange Visitor (J-1) Status (DS-2019) is deemed to be the equivalent of a J-1 visa for Canadian nationals.

Section 5. Continuing Eligibility.

A student who has used all remaining eligibility may retain eligibility for any portion of that athletic schedule not completed by the end of the semester in which the student was eligible, provided the student is eligible in all other respects.

Section 6. Waiver Of Sections 1A and/or 1B.

A. The District Committee may waive Sections 1A and/or 1B in cases of long-confining illness or injury which meet all of the following requirements: (1) causes at least 60 days of absence from school during the school year or semester which is to be repeated, (2) causes the student to be confined to an institution and/or at home for at least 60 school days during the school year or semester which is to be repeated, (3) necessitates repeating a school year or semester, and, for a waiver of **Section 1B**, (4) the student participated in fewer than 25% of the maximum permitted number of Regular Season Contests in the sport during the repeated school year or semester.

B. The District Committee may waive Sections 1A and/or 1B in cases where a student has repeated a school year or semester for a reason beyond the student's control, which produced a condition equally as debilitating as a long-confining illness or injury, and, for a waiver of Section 1B, the student participated in fewer than 25% of the maximum permitted number of Regular Season Contests in the sport during the repeated school year or semester.

C. The District Committee may waive Section 1A in cases where a student, as part of a recognized foreign student program, attended a school in a foreign country which did not offer an interscholastic athletic program.

D. If the establishment of any requirement necessary for the District Committee to exercise its discretion to grant a waiver of Section 1A or 1B results from illegal conduct on the part of the student, other than a repeated school year or semester during which the student, without there having been a criminal conviction or an adjudication of delinquency, was admitted to a substance abuse treatment facility, the District Committee shall not grant the waiver.

E. Any other provision of this Section notwithstanding, the District Committee shall not waive Section 1A or 1B where any repetition of a school year or semester was in whole or in part for reasons of scholarship, except where the scholarship reason resulted solely from circumstances which would otherwise lead the District Committee to grant the waiver. "Scholarship" shall include, but not necessarily be limited to, repetition for the purpose of correcting or alleviating problems, deficiencies, or weakness in the student's academic performance, and shall not be limited to cases of academic failure, whether or not such failure necessitates repetition of a grade or subject(s).

NOTE: So that the District Committee may make a more timely and informed decision, it is requested that the Principal notify the District Committee whenever a situation dictates a possible request for additional eligibility.

Section 7. Yearly Season Limitation.

A student may participate only one (1) season in each sport during each school year.

ARTICLE IX

REPRESENTATION

Section 1. Student Ineligible Who Otherwise Competes In the Same Sport.

A. Any member of a high school team, who participates in an Inter-School Practice, a Scrimmage, or a Contest as an individual or as a member of another team in the same sport during the same season, shall be ineligible to compete in that sport for the remainder of that sport's season. The season shall begin with the first Practice day of that sport, shall include vacations, holidays, and periods of suspension, and shall end with the last Regular Season Contest day in that sport unless the team is entered into District and/or Inter-District Championship Contests, in which event the season shall end with the last Contest in which that team participates in such Championship Contests.

B. How Waiver Of Same Sport Rule May be Obtained.

ARTICLE IX,

Section 1A may be waived for all sports providing that such waiver is first approved in writing by the Principal of the school concerned and is placed in the school's permanent file in the PIAA Office.

Section 2. Eligibility Of College Students For High School Athletics.

No person who has been enrolled as a part-time or full-time student in an institution of college standing and who has participated in an intercollegiate Scrimmage or Contest shall be eligible for interscholastic athletics.

Section 3. All-Star Contests and Contests to Qualify for and/or Determine a Single National High School/Interscholastic Individual Champion or Championship Team (National High School/Interscholastic Championships).

PIAA neither approves nor disapproves all-star contests and national high school/interscholastic championships in any sport. Students who participate in an all-star contest or in national high school/interscholastic championships shall be ineligible for interscholastic athletics in the involved sport for a period of one year from the date of such participation. PIAA considers an athletic activity to constitute an all-star Contest(s) if either of the following elements is present:

1. Participants qualify for participation in the activity as a result of high school/interscholastic athletic ability, performance, or reputation.
2. Participants are selected by a means other than qualifying for the activity through a try-out session.

INTERPRETATION

Section 5. May 21, 1981.

A student who graduates from high school prior to completion of the athletic season of a sport in which the student is participating remains eligible in that sport for any portion of its athletic season not completed by the time of the student's graduation, provided the student is eligible in all other respects.

INTERPRETATIONS

April 1, 1950; as amended January 31, 2004.

A student who successfully completes the eleventh grade, then takes a non-credit summer course in a preparatory school to prepare for ACT or SAT examinations is not considered to have used a semester of eligibility.

March 20, 1965.

No postgraduate is eligible to compete in interscholastic athletics.

Section 5. May 21, 1981.

A student who graduates from high school prior to completion of the athletic season of a sport in which the student is participating remains eligible in that sport for any portion of its athletic season not completed by the time of the student's graduation, provided the student is eligible in all other respects.

(NOTE: This modifies the Interpretation of March 20, 1965.)

Sections 1A and 6A. April 14, 1984.

Pregnancy shall be treated as an illness if a physician certifies, in writing, that the student was unable to attend school as a result of pregnancy.

Section 4. Multiple Teams at Same Level of Competition.

If a member school sponsors more than one team in a sport at the same level (varsity, junior varsity, or otherwise) of competition, a student shall be eligible to participate on only one of those teams in any season. During the season, a student may be transferred from a team at one level of competition to a team at another level of competition, but shall not be transferred either directly or by means of an intermediate transfer between levels of competition from one team to another at the same level of competition. For purposes of this Section, a school is considered to have a team in a sport when it has one or more of its students participate in an Inter-School Practice, Scrimmage, or Contest involving one or more other schools.

Section 5. Eligibility of Teams and Multiple Individuals for Championship Contests.

A member school which does not sponsor during the Regular Season a team which participates in more than 50% of the maximum permitted number of Regular Season Contests in a sport shall be ineligible to enter a team in that sport in the District or Inter-District Championship Contests, to receive a team score in that sport in District or Inter-District Championship Contests, and to enter in that sport in the District or Inter-District Championship Contests any Athletic Event which requires the participation of more than one individual, including but not limited to relay teams and doubles tennis teams. This provision does not apply to a member school which (1) has notified the PIAA Office in writing, prior to the first Practice day of the sport, that it will be sponsoring a team in that sport, and (2) fails to meet the participation requirement solely as the result of weather, lack of available opponents, or another cause beyond the school's control.

Section 6. Eligibility of Students for Championship Contests.

A student who participates as an individual or as a member of a team in a sport in an athletic program other than that of the student's school, who is enrolled at a school having a team in that sport, shall be ineligible to participate in the District or Inter-District Championship Contests in that sport unless the student has been in uniform and available to participate as a member of the student's school team in that sport for at least 75% of the contests occurring within the period of time beginning with that team's first contest and ending with its last contest of the Regular Season. Where the failure to meet the 75% requirement results from illness, injury, or a student's failure to meet another PIAA eligibility rule, the Principal of each school may waive the requirement. With regard to practices for the period of time beginning with the team's first contest and ending with its last contest of the Regular Season, the Principal of each school shall determine whether practice in the athletic program other than that of the student's school meets the practice requirements of that school. If it does not, the student shall be ineligible to participate in the District or Inter-District Championship Contests in that sport.

ARTICLE X

CURRICULUM

Section 1.

To be eligible for interscholastic athletic competition, a student must pursue a curriculum defined and approved by the Principal as a full-time curriculum. Where required, this curriculum or its equivalent must be approved by, and conform to, the regulations of the State Board of Education and the Pennsylvania School Code, as well as any local policies established by the local School Board. The student must be passing at least four full-credit subjects, or the equivalent. Eligibility shall be cumulative from the beginning of a grading period, shall be reported on a weekly basis, and shall be

WEST MIFFLIN AREA ATHLETIC HANDBOOK

filed in the Principal's office. In cases where a student's cumulative work from the beginning of the grading period does not as of any Friday meet the standards provided for in this Section, the student shall be ineligible from the immediately following Sunday through the Saturday immediately following the next Friday as of which the student's cumulative work from the beginning of the grading period meets the standards provided for in this Section. Where a school is closed on a Friday for any reason, the Principal may, at the Principal's election, determine whether the student as of that day meets the standards provided for in this Section.

Section 2.

To be eligible for interscholastic athletics, a student must have passed at least four full-credit subjects, or the equivalent, during the previous grading period, except as provided in **Section 5**. Back work may be made up, providing it is in accordance with the regular rules of the school.

INTERPRETATIONS

Section 2. July 22, 1982; as amended December 7, 1985.

A student who has passed subjects which in the aggregate total at least four credits has passed the equivalent of four full-credit subjects.

Section 2. July 21, 1983; as amended December 7, 1985; and May 11, 2002.

ARTICLE X, Section 2 sets only the minimum academic standards for interscholastic athletic eligibility. Since the standards are minimum standards (passing "at least" four full-credit subjects), member schools may adopt higher or more stringent academic standards, but may not have lower academic standards.

Sections 1 and 2. October 6, 2001.

Whenever students spend approximately double the amount of time in class under "block" scheduling in comparison to "traditional" scheduling, a credit that a student is carrying under "block" scheduling would be the equivalent of two credits under "traditional" scheduling in determining athletic academic eligibility, except when eligibility is determined by final credits at the end of the school year.

INTERPRETATION

Section 4. April 7, 2001; as amended May 21, 2003; and May 26, 2004.

A member senior high school may be represented by only one wrestler in each weight class during varsity dual meet and tournament competition. Junior varsity wrestlers who participate in a tournament in which their school's varsity wrestlers participate shall constitute another varsity wrestling team sponsored by that senior high school. Such wrestlers are therefore ineligible to participate on any other varsity wrestling team sponsored by that senior high school.

INTERPRETATION

Section 3. May 12, 2001.

The loss of eligibility in a sport provided under ARTICLE IX, Section 3, will not affect those students who have exhausted their eligibility in that sport at the time the loss provided in ARTICLE IX, Section 3 would otherwise occur. This relates almost exclusively to seniors.

Section 3.

In cases where a student's work in any preceding grading period does not meet the standards provided for in Section 2, said student shall be ineligible to participate in interscholastic athletics for at least fifteen (15) school days of the next grading period where the school has four (4) grading periods per school year, or for at least ten (10) school days of the next grading period where the school has six (6) grading periods per school year, beginning on the first day report cards are issued, except as provided in Section 5.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

Section 4. New Students Must Meet Eligibility Requirements On Curriculum.

Students who are enrolled for the first time must comply with the requirements of the curriculum rules. The standing required for the preceding week, the preceding grading period or the preceding year shall be obtained from the records of the last school which the student has attended.

Section 5. Use of Final Credits at End of School Year.

At the end of the school year, the student's final credits in the student's subjects rather than the student's credits for the last grading period shall be used to determine the student's eligibility for the next grading period.

ARTICLE XI

ASSUMED NAME

A student who participates in an Inter-School Practice, Scrimmage, or Contest under a name other than the student's own shall be ineligible to participate in interscholastic athletics for one year from the date of such participation under an assumed name.

Procedure for Clinics and Coaches' Clinics

It is the responsibility of the head varsity coach to plan these types of events into their yearly calendar. The West Mifflin Area Athletic Department believes this a great opportunity for our coaches and athletes to interact with the community to build a solid feeder program and enthusiasm for the sport. However, these types of endeavors need to be well-planned and age-appropriate training. Within your teams' tentative yearly calendar, you should plan accordingly for your clinic. The rationale for the planning in advance is to secure building permits, proper personnel, and informing the proper personnel within the district.

Procedure is as follow

- Set date for clinic on tentative yearly schedule

WEST MIFFLIN AREA ATHLETIC HANDBOOK

- Submit a copy of your agenda, goals, dates, price, location, and who is all involved.
- Secure all permits and board approval as soon as possible. **Do not advertise until you receive the approval from the School Board.**
- Any money raised through these types of programs will be handled through the appropriate booster organization. **Coaches are not to handle the monies collected for the clinic.**
- The Athletic committee wants a written report on the clinic. Information that is pertinent to the committee is attendance, successfulness of the clinic, any damage, injury report, and did you obtain your goal.

Coaches' Clinic

Any coach wanting to participate in a coach's clinic must submit the proper paper work in order to attend. Individual coaches, refer to your supplemental contract for the amount which you have been designated for clinics. Head Coaches may take their assistants to the clinic(s) of their choice as long as you do not exceed the limit set by your contract. (*Policy 133 located in the appendix*)

Dual Participation

Students may petition the District to compete in two activities in one season. (*i.e. Volleyball and Marching Band or Soccer and Drama*) Student must complete the application which is located in the appendix and follow the procedure that is outlined in the dual participation request form. The completion of this request does not assure a student-athlete permission to compete in both areas of interest. The final determination will be the head coaches and/or the sponsors, since they are the leaders and in-house expert in that area. They will make the judgment whether or not a student athlete will be able to fulfill the requirements or meet the expectations to perform at the level that is required of them.

Coaches Uniforms

It is the belief of the WMAAC that all coaches' attire will be consistent throughout the athletic department. The district wants all coaches to be properly attired at all scheduled contests. The WMAAC believes in order to change the perception of our athletic department is by changing peoples' first impression and that is how our coaches look. Standardized uniforms for all coaches will be khaki pants and polo shirts.

Travel to Away Events

If a team is traveling to an event and it is over 50 miles one way a charter bus maybe ordered. The Athletic Director will schedule the bus and secure the service.

ATHLETE'S ROLE IN DEVELOPING A QUALITY ATHLETIC PROGRAM

Talk to Your Coach

Coaches want to help. Share your concerns with them before concerns become major problems for you and the team. If you have suggestions for the team or are concerned about your standing or that of a teammate, arrange to discuss the issues with your coach in private. Often times coaches can help. They are truly interested in the welfare of the entire team and each of its members. **At West Mifflin Area, we believe athletes come first, winning is second!**

WEST MIFFLIN AREA ATHLETIC HANDBOOK

Encourage Parents to be Positive

Explain to your parents that you expect them to be positive supporters not only of your efforts but the efforts of the coaches and team members as well. Discuss sportsmanship expectations with them and ask them to do their part in making West Mifflin Area's athletics a program in which everyone is proud. Remind them to focus on the positive aspects of your team's performance and your coaches' decisions.

Support Your Teammates

All teams are made of individuals with a wide range of abilities. Successful teams understand that each player makes important contributions to the overall success of the team. Assist your teammates to be the best they can be as athletes and as students. Even professional athletes understand that mistakes are a part of the game and no athlete makes mistakes on purpose. Never blame a loss on the performance of a teammate. Trust them to do the best they are capable of doing.

Believe in Your Coaches

Coaches have a truly impossible job. Too many players and parents give credit to players when games are won but blame coaches for losses. They expect mistakes from players and perfection from coaches. In sports, it is impossible to make decisions that make everyone happy. Every player can not play every minute and there must be a loser in every contest that is played. Learn to accept the role your coaches assign you. Be understanding of the difficult situations your coaches have to deal with and be supportive of their efforts to your friends, your parents, and your teammates.

Make A Commitment

Live up to the commitments you make as an athlete. Don't agree to not drink and then go to a party the first chance you get. Don't stop doing push-ups whenever the coach looks the other way. Don't commit to being positive and then badmouth a coach or teammate the first-time things don't go your way. Breaking commitments is habit forming. Individuals who break commitments in life cannot be counted on in a game. Work together with your teammates to be the best you can be!

Insurance and Physicals

- The school shall require of each student participating in athletics a physician's certificate stating that he or she is physically able to participate in tryouts and/or athletic contests of his or her school. The necessary form will be available to the student athlete by their coach, Trainer, and/or Athletic Director and must be turned in before a tryout can take place. A recent physical is required for any additional sport.
- Families may purchase school insurance to provide coverage for their student-athlete.
- No student will be allowed to try out for any sport without a completed physical exam form.
- The school will arrange physicals on a specific day; if the student-athlete does not attend on that day he/she must arrange their own physical (family doctor/Med Express) in order to compete in that sport.

Uniforms/Equipment Policies

Whenever possible, it is the goal of the West Mifflin Area Athletic Department to reduce additional costs to families by providing school owned uniforms and some equipment for students. School

WEST MIFFLIN AREA ATHLETIC HANDBOOK

ownership permits a higher level of assurance that uniforms and equipment, especially protective equipment, meets national safety standards. If families own protective equipment, it is their responsibility to maintain it at this standard.

School owned equipment

1. School issued and owned equipment must be returned in good condition, washed and ready to be used again on the schedule indicated by the coaching staff of each sport.
2. Some equipment that is purchased by the athletic department is not available for resale to students, and in some cases is custom made and must be ordered in quantity.

Lost equipment or equipment not returned

1. Coaches will establish dates and locations for the purpose of returning school owned equipment back to inventory. Lost or damaged equipment will be charged at a rate of 125% of initial cost to cover the additional expense of ordering in limited quantities.

A credit will be issued and a \$25.00 late charge will then be applied to students who turn in equipment thirty days or more past the final deadline set by their coaching staff for return of equipment.

Students who do not return their equipment in the time frame allotted will have an athletic obligation placed on their record and the athletic department will view this event as a theft. Students will not receive their report cards and parents will lose their access to PowerSchool to view their child’s grades and homework assignments until the obligation is paid. Stealing of equipment (West Mifflin Area's or anyone else's equipment) may result in suspension from all athletics for the period of one year. (as per code of conduct)

Athletic Team Limited Roster Notification

The West Mifflin Area School District stresses the importance and the optimistic role that interscholastic athletics plays in the development of a positive school climate. It is the desire of the WMASB that our athletic program support as many athletes as possible. The coach will determine the number of student-athletes that he/she are able to manage and to reach the highest level of instruction. We realize that at times we have an excessive number of young people come out for a particular sport that by their nature requires only a small number of participants. We want to make all parents aware of the limited roster situation, we as a district will make very attempt to avoid limiting rosters, possibility exist that at times this will be unavoidable.

Playing Time

There are many benefits to be gained by participation in athletics at the high school level. Athletes learn discipline, to perform under stress, teamwork, sacrifice, commitment, effort, accountability, sportsmanship, confidence, leadership, and to play within the rules. Although there are many measures of success in the minds of each athlete, perhaps the most emotional is “playing time” during games. If an athlete has a question about the amount of playing time he/she is getting, he/she should be encouraged to discuss it with the coach. Being a member of a team at West Mifflin Area High School does not guarantee “playing time,” but there are some guidelines:

- **Freshmen and Junior Varsity Teams**

This is the developmental level where athletes learn skills and strategies to prepare them for varsity competition. The coaching staff will play all team members for as much time as is practical. There are many factors that govern an individual playing time. Some of the most important are: attendance at practice, effort, attitude, commitment, and athletic skill. This is the level for athletes to show their potential and demonstrate to the coaching staff that they are ready for varsity level competition.

- **Varsity Teams**

This level of competition has the same factors and guidelines as the sub-varsity teams. However, there is one additional major factor. The varsity teams compete against opponents at the highest possible level. There is a greater emphasis on winning. To reach this goal, the most competitive, skilled team members will get the most playing time. However, teams cannot be successful without committed substitutes or “second string” players. These athletes have to be ready to step up when needed, and practice hard to help make the team as competitive as they can be. They should constantly strive to move up to the “starting” role. There are many decisions made by the coaching staff during the course of a season. These include which athletes should be starters, who should play what position, and how long each athlete should play. These decisions, often difficult to make, are made only by the coaching staff, and are approached with the best interest of the team as the top priority.

Team Captains

It is a coach’s decision how team captains are chosen. They may be elected by the team or appointed by the coach prior to the first regularly scheduled event. Captains may also be appointed on a game-by-game basis.

It is expected that team captains be leaders of their team. Captains are expected to assist the coaching staff by promoting team rules, and communicating with coaches about problems that arise that could affect the team.

Captains of a team may be relieved of their position for violating team, athletic department, school, or PIAA rules.

Time Limit for Students to Participate

It is the belief of the West Mifflin Area Athletic Committee that no student may join a team after the first two weeks of the season. If a student athlete can not determine at the onset of the season to commit themselves to a team then the student athlete will not be permitted to join the team once the coach has his/her team in place and ready for the season.

Tryouts

Participation in athletics is a privilege given to those students who meet all requirements set by the PIAA and the West Mifflin Area School District. Students try out voluntarily and, in doing so, risk being cut. It is the judgment of the coaches that dictates the selection and number of participants for teams. All student-athletes should be aware that selection to a team one year does not guarantee placement on that team the following year.

Please note that selection to a team is a coach’s discretionary responsibility. Selection to a team represents a culmination of both physical ability applicable to the sport and level of competition, and positive effort. Each coach has the discretionary right to promote a player or not select a player based upon attitude and effort displayed by an athlete.

It is the belief of the WMAC that there are certain sports that can not support the number of student athletes that are interested; therefore, the coach will utilize a rating system to reduce the number of participants to a manageable number. The rationale for cutting students is many but the main factor is playing time and manageable number of students. Any coach utilizing a cutting system will meet with the student athletes and parents to explain the rating process, who are raters, and the specific skills that the raters are looking for.

 11. A coach/sponsor may include other regulations pertaining to his/her OSG with the approval of the Board. Participants will be notified of the regulations in writing (signed by player and parent/guardian).
 12. These rules will be in effect from the time a student is seventh grade until the end of all interscholastic athletics and all co-curricular activities in the 12th grade.
 13. Students participating in any OSG must remember that they represent the school and the community and should conduct themselves in a manner befitting this responsibility.
 14. A pupil, who has been absent from school during a semester for a total of 20 or more days, shall not be eligible to participate in any OSG until that student has been in attendance for a total of 45 school days following his 20th day of absences; except where there is a consecutive absence of five or more school days, due to a confining illness, injury or quarantine, such absence may be waived from the application of this rule by the P.I.A.A. district committee if a thorough and complete investigation warrants such waiver. Attendance at summer school does not count toward the 45 days required. Absence from school for an entire semester, or for several semesters, shall disqualify a pupil for the same period as stated before.
 15. In order to be eligible for OSG, a pupil must have passed at least four full credit subjects or the equivalent during the previous grading period. Back work may be made up providing it is in accordance with the regular rules of the school.

ATHLETE'S CREED

I, _____, wish to participate in the athletic program provided by the West Mifflin Area High School. I realize that this is both an honor and a privilege.

I have read and will uphold the Athletic Training Rules. As a team member, I represent this organization and realize my conduct reflects not only myself, but my school, coach, teammates and family. I realize that being an athlete is a full-time responsibility and does not end when I leave the match or training session.

I am aware that the coaches will keep an attendance record of my involvement with this team. I understand that there will be consequences for missing practice(s) or games that will be outlined by the coach.

I will keep myself groomed in a fashion outlined by the coach. The coach will discuss with the team and myself what will be acceptable when a member of this team is representing the school and community.

I understand that I am responsible for laundering my uniform and will turn it in at the end of the season in clean condition.

I realize that once I earn a position on a team, I may not switch to another sport during that season. If I quit a team, I realize that I forfeit all privileges for awards and may jeopardize my chances for future participation.

I realize that any violation of the "Athlete's Creed" will result in disciplinary action as outlined in the Athletic Training Rules and that four (4) offenses throughout grades 9-12 deem me ineligible for the remainder of my years at West Mifflin Area.

Individual Coach’s Rules

Coaches may establish additional rules and regulations with the approval of the athletic director for their respective sports. These additional rules for a particular sport must be stipulated in writing to all team members and parents and explained fully at the start of the season. Penalties for violation of team rules will also be in writing and shall be administered by the coach. Copies of all additional team rules by coaches are on file on the athletic office.

Practice Scheduling

Practice schedule for all sports will be coordinated through the Athletic Director’ office to assure all participants using WMASD facilities equality. It is of the utmost importance to the athletic department that each one of our teams has the proper training and practice time to prepare for each of their respective seasons. All West Mifflin Area Interscholastic Teams are the priority when it comes to scheduling the different facilities. It is only after our schedule is set, then we will open the facilities to outside organizations.

School Cancellation and Early Dismissal

- A. When school is canceled due to weather there shall be no interscholastic sport activity for that day. This includes practices and scheduled contests.

Use of School Facilities

The West Mifflin Area School District takes great pride in the facilities we have to offer our student-athletes and it is the mission of the West Mifflin Area Athletic Committee to continue to provide our athletes with the best possible venues to compete in.

The Committee realizes the needs of the community to utilize the facilities we have within our district; however, our first commitment is to our student-athletes. The committee invites all organizations to use our facilities, but outside organizations must understand our co-curricular activities have precedence over any outside organization.

In order for an outside organization to secure our facilities, they must first complete the application process and return it to the permit office. The applications for building use are available in the main office at each school in the district. The permit office will coordinate the dates with the activities that are taking place within each school to ensure the facility is not being used. In the case of a date that is in conflict with an activity at the school the permit office will contact the organization to inform them of the situation and give a list of possible open dates to accommodate the organization’s needs. Finally, the

WEST MIFFLIN AREA ATHLETIC HANDBOOK

building principal will sign-off on the application and the permit office will forward the application to the Superintendent's office for Board approval.

NOTE: *No Weekend activities will be granted through the building principal's office. All Weekend activities **must** have board approval. However, you must prepare the proper documentation and submit it no later than one (1) month in advance as outlined in West Mifflin Area Policy and Procedure Manual. Policy 707 dictates the procedure and documentation needed in order to secure a facility permit. The policy and forms are located in the appendix.*

At no time are parents/guardians or nonparticipating persons permitted on the playing area. This rule has been initiated because of the national trend of nonparticipating people harassing, assaulting, and violating the integrity of athletic competition. It is the mission of the WMAC to assure our players, coaches, referees, and spectators a safe, orderly environment to watch an athletic competition. If any person violates this regulation the WMASD will prosecute that person to the fullest extent of the law as possible.

Football field – No students are permitted to walk in the upper commons area during the game, only exceptions are if a student is utilizing the restroom or concession stand. At no time is any person permitted in the lower commons area beneath the bleachers.

Gymnasium – No person is permitted to cross the in bounds lines and no one is permitted to stand underneath the basketball hoops during the contest. Spectators are to enter the gymnasium via the gymnasium doors and walk along the court to their seats.

Baseball/Softball fields – No person is permitted in the fenced area or dugouts and no one is permitted to stand behind the backstop during the game.

Risk of Athletic Participation

Injuries can and do occur in any activity. In extremely rare cases, death could also result. At West Mifflin Area School District, we will do all that we can to ensure a safe and healthy environment for our athletes.

Coaches Certifications

All West Mifflin Area coaches must be certified in first aid, CPR, AED, Heat Acc./Cardiac, Concussion, and mandated reporter. Certification will be through either our district's school nurses or UPMC trainer. All coaches will receive training in these prior to their respective seasons. The Athletic Director will arrange for each coaching staff to receive training.

All West Mifflin Area coaches will be required to attend a workshop to become certified through the American Sport Education Program. The workshop will be coordinated through the Athletic Director's office and all coaches will receive notice of the training sessions

7. The use of obscene language will not be tolerated. The individual coach may handle the punishment.
 8. Any participant who drops out of an OSG or athletic team before the end of the season to participate in another program other than a high school or middle school program may be suspended from that program the following season.
 9. Any participant, who drops out of an OSG before the end of the season to participate in an OSG within the high school, must have the consent of the coach/sponsor of both OSG's.
 10. A student suspended from high school is automatically suspended from participation in all school activities during the period of suspension.
 11. A coach/sponsor may include other regulations pertaining to his/her OSG with the approval of the Board. Participants will be notified of the regulations in writing (signed by player and parent/guardian).
 12. These rules will be in effect from the time a student is seventh grade until the end of all interscholastic athletics and all co-curricular activities in the 12th grade.
 13. Students participating in any OSG must remember that they represent the school and the community and should conduct themselves in a manner befitting this responsibility.
 14. A pupil, who has been absent from school during a semester for a total of 20 or more days, shall not be eligible to participate in any OSG until that student has been in attendance for a total of 45 school days following his 20th day of absences; except where there is a consecutive absence of five or more school days, due to a confining illness, injury, or quarantine, such absence may be waived from the application of this rule by the P.I.A.A. district committee if a thorough and complete investigation warrants such waiver. Attendance at summer school does not count toward the 45 days required. Absence from school for an entire semester, or for several semesters, shall disqualify a pupil for the same period as stated before.
 15. In order to be eligible for OSG, a pupil must have passed at least four full credit subjects or the equivalent during the previous grading period. Back work may be made up providing it is in accordance with the regular rules of the school.

Procedures for Locker Room Usage

The district has extended the privilege to all athletic teams the use of the locker rooms and facilities within the district. However, there are concerns with the security level of our locker rooms. The administration in conjunction with the Athletic Director has put in place procedures for securing the locker rooms.

- Coaches need to make certain that the doors are **locked** at all times when you and your team are not in the locker room.
- Remind each student to purchase a lock for their locker in the team room and/or the locker room itself.
- As you exit the locker room to the practice facility make certain that all doors are locked because of the access to the area is accessible from the loading dock.
- Reinforce to all student athletes not to bring any valuables to practice and if so develop a procedure for securing the valuables.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

- Emphasize to all student athletes that the school district is not responsible for any stolen or lost items.

These procedures should be carried out during all practices and games that take place within the confines of the West Mifflin Area High School.

Eligibility

The list submitted by the coach will be used to send our eligibility to the other schools that we compete against.

All athletes have their academic progress checked weekly during their season. The 1.5 list will be generated every Friday at noon by the assistant principal. The assistant principal will send out the 1.5 list and also notify the student-athlete. Athletes declared ineligible will not be permitted to play from Sunday at 12:00am through the end of the next Saturday at 11:59pm.

**Any student-athlete who is ineligible for 3 consecutive weeks will be removed from the team for the remainder of the school year.

An athlete who is absent from school will not participate in a scheduled game that day unless the athlete has pre-approval from the principal. All student athletes must be in school by 11:30 AM or they will be ineligible for practice or games that day.

In order for students to be excused from classes during the school day for athletic events, they must be present in school from the beginning of the school day.

An athlete may be declared ineligible at any time by the school board, school superintendent, or school principal for any behavior or conditions which may warrant such action after such behavior or conditions have been reviewed by the director, the athletic director, and the head coach of the activity involved.

Player/Parent Information Meetings

Coaches should hold pre-season meetings with parents and players to give ample notification of tryout and booster club information. Coaches should have all eligibility paperwork available for these meetings and be prepared to answer any questions. Parents should be given the season schedule, expectations for behavior, and the time commitment involved with the sport.

Athletic Programs and Personnel Complaint Procedures

Complaints concerning District athletic programs and personnel are welcomed when motivated by a sincere desire to improve the quality of the athletic program and to perform tasks more effectively.

Personnel or Program Complaints

1. Complaints regarding an individual coach must be made directly to the head coach by the complainant. Every effort should be made to resolve the problem at this stage.
2. Complaints not resolved with the head coach must be submitted in writing to the Athletic Director.

The written complaint must contain the following:

- The name of the coach or the specific sport, level of competition, and/or the general athletic concern involved.
- A brief but specific summary of the nature of the complaint and the facts surrounding same.
- The complaint must be signed by the complainant.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

Note: Because playing time and level or position placement are the sole responsibility of the coach, complaints regarding these items will not be heard beyond the Athletic Director.

3. For complaints not tied to a specific situation, the first contact for concerns about any phase of the athletic program is the Athletic Director. This may be done either verbally or in writing.
4. Complaints not resolved with the Athletic Director will be referred to the school's director in charge of Athletics for resolution. The director in charge of Athletics shall receive a copy of the written complaint and a written report of the efforts made to resolve the problem. The complainant shall receive a written response.
5. Complaints not resolved by the school's director in charge of Athletics and/or the principal may be referred in writing to the Superintendent for study and resolution.
6. Complaints not resolved by Superintendent may be referred to the Athletic Committee, This meeting will be arranged through the superintendent or his/her designee. The Committee's ruling will be final.

The Chain of Command

The Chain of Command in order as to which steps to follow when a concern arises:

- Step one - Head Coach
- Step two - Athletic Director
- Step three - Building Principal
- Step four - Superintendent
- Step five – Athletic Committee

Note: if the complaint procedure is not followed the complainant will be redirected to the proper step of the chain of command to have their situation resolved.

Procedures to follow when you discuss a concern with a coach

1. Call to set an appointment
2. Call the coach's school number (on-campus coaches) or the athletic department (412-466-9131 ext.1030) to secure the appropriate number.
3. If the coach cannot be reached using the step above, call the West Mifflin Area Athletic Department (412-466-9131 ext.1030) and the athletic director will assist you with setting up the appointment.
4. Please **do not** confront a coach before or after a contest or practice without setting up an appointment. These can be emotional moments. Meetings of this nature are not likely to promote resolution.

What can a parent do if the meeting with the coach did not provide a satisfactory resolution?

1. Call and set up an appointment with the athletic director to discuss the situation.
2. At this meeting the appropriate next steps can be determined.

Time Limit for Students to Participate

It is the belief of the West Mifflin Area Athletic Committee that no student may join a team after the first two weeks of the season. If a student athlete can not determine at the onset of the season to commit themselves to a team then the student athlete will not be permitted to join the team once the coach has his/her team in place and ready for the season.

Athletic Team Limited Roster Notification

The West Mifflin Area School District stresses the importance and the optimistic role that interscholastic athletics plays in the development of a positive school climate. It is the desire of the WMASB that our athletic program support as many athletes as possible. The coach will determine the number of student-athletes that he/she are able to manage and to reach the highest level of instruction. We realize that at times we have an excessive number of young people come out for a particular sport that by their nature requires only a small number of participants. We want to make all parents aware of the limited roster situation. We, as a district, will make every attempt to avoid limiting rosters, but the possibility exists that at times this will be unavoidable.

Tryouts

Participation in athletics is a privilege given to those students who meet all requirements set by the PIAA and the West Mifflin Area School District. Students try out voluntarily and, in doing so, risk being cut. It is the judgment of the coaches that dictates the selection and number of participants for teams. All student-athletes should be aware that selection to a team one year does not guarantee placement on that team the following year.

Please note that selection to a team is a coach’s discretionary responsibility. Selection to a team represents a culmination of both physical ability applicable to the sport and level of competition, and positive effort. Each coach has the discretionary right to promote a player or not select a player based upon attitude and effort displayed by an athlete.

It is the belief of the WMAC that there are certain sports that can not support the number that of student athletes that are interested so the coach will utilize a rating system to reduce the number of participants to a manageable number. The rationale for cutting students is many but the main factor is playing time and manageable number of students. Any coach utilizing a cutting system will meet with the student athletes and parents to explain the rating process, who are raters, and the specific skills that the raters are looking for.

Parent/Coach Communication

Parents and coaches are important role models for students. They both provide necessary guidance to young adults in their development and their understanding of the world in which they will live and work as adults. When parents and coaches understand and respect each other, they can work together to benefit student athletes. You have a right as a parent to understand the commitment, expectations, and responsibilities that accompany participation in the WMASD athletic program. Clear communication

WEST MIFFLIN AREA ATHLETIC HANDBOOK

between parents and coaches facilitates this understanding. Listed below are a number of steps to enhance parent/coach communication. It is important also to remember that the first link in the communication network is the one established between coach and student. Encourage your child to exercise the opportunity to speak directly with his/her coach about any topic and preferably before a parent/coach conversation is scheduled.

Communication you should expect from your child's coach

1. Philosophy of the coach
2. Locations and times of all practices
3. Explanation of athletic department training rules
4. Team requirements (i.e., special equipment, fees, off-season conditioning recommendations)
5. Procedures if your child is injured during participation
6. Explanation of excused and unexcused absences from practices/contest beyond what is provided in this document
7. Discipline that results in denying your child a participation opportunity

Communication coaches expect from parents

1. Concerns expressed directly to the head coach
2. Notification of any schedule conflicts well in advance
3. Specific questions regarding a coach's philosophy and or expectations

As your child continues their participation in the WMASD athletic program they will experience some very rewarding moments. It is also important to remember there are times when adversity and disappointment inevitably occur. At these times discussion with the coach is encouraged.

Appropriate issues to discuss with coaches

1. The mental and physical treatment of your child
2. Ways to help your child improve
3. Concerns about your child's behavior

It is very difficult to accept that your child may not play as much as you, or perhaps they, hoped. Coaches are professionals. They are charged to make judgment decisions based on what they believe is equitable and best for all students involved. As you have read in the list above, certain items are open for discussion with your child's coach. Other decision making must be left in the hands of the coach assigned the responsibility of coaching your child's team.

Issues not appropriate to discuss with coaches

1. Playing time
2. Team strategy
3. Play calling
4. Other student-athletes

There are situations that may require a conference between the coach and the parents or guardians. It is important that both parties involved have a clear understanding of the other's position.

Playing Time

There are many benefits to be gained by participation in athletics at the high school level. Athletes learn discipline, to perform under stress, teamwork, sacrifice, commitment, effort, accountability, sportsmanship, confidence, leadership, and to play within the rules. Although there are many measures of success in the minds of each athlete, perhaps the most emotional is “playing time” during games. If an athlete has a question about the amount of playing time he/she is getting, he/she should be encouraged to discuss it with the coach. Being a member of a team at West Mifflin Area High School does not guarantee “playing time,” but there are some guidelines:

- **Freshmen and Junior Varsity Teams**

This is the developmental level where athletes learn skills and strategies to prepare them for varsity competition. The coaching staff will play all team members for as much time as is practical. There are many factors that govern an individual’s playing time. Some of the most important are: attendance at practice, effort, attitude, commitment, and athletic skill. This is the level for athletes to show their potential and demonstrate to the coaching staff that they are ready for varsity level competition.

- **Varsity Teams**

This level of competition has the same factors and guidelines as the sub-varsity teams. However, there is one additional major factor. The varsity teams compete against opponents at the highest possible level. There is a greater emphasis on winning. To reach this goal, the most competitive, skilled team members will get the most playing time. However, teams cannot be successful without committed substitutes or “second string” players. These athletes have to be ready to step up when needed, and practice hard to help make the team as competitive as they can be. They should constantly strive to move up to the “starting” role. There are many decisions made by the coaching staff during the course of a season. These include which athletes should be starters, who should play what position, and how long each athlete should play. These decisions, often difficult to make, are made only by the coaching staff, and are approached with the best interest of the team as the top priority.

Team Captains

It is a coach’s decision how team captains are chosen. They may be elected by the team or appointed by the coach prior to the first regularly scheduled event. Captains may also be appointed on a game-by-game basis.

It is expected that team captains be leaders of their team. Captains are expected to assist the coaching staff by promoting team rules, and communicating with coaches about problems that arise that could affect the team.

Captains of a team may be relieved of their position for violating team, athletic department, school, or PIAA rules.

Team Classification

- A. Varsity – Varsity team competition is available to any eligible high school student skilled enough to make the team.
- B. Jr. Varsity – Junior Varsity competition is for those athletes who at their present development are not skilled enough for varsity competition.
- C. Freshman – Must be ninth grade athletes only.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

Athletes may be moved from one team to another within the limits of the above statements and providing they do not violate PIAA regulations on participation limitations as set forth in the PIAA Handbook.

Transportation

Parents are not permitted to transport student-athletes to and from any away competition that the West Mifflin Area School District has provided transportation for.

No student-athlete is permitted to transport themselves to and from any competition that the West Mifflin Area School District has provided transportation for.

Equipment Policies

Whenever possible, it is the goal of the West Mifflin Area Athletic Department to reduce additional costs to families by providing school owned uniforms and some equipment for students. School ownership permits a higher level of assurance that equipment, especially protective equipment, meets national safety standards. If families own protective equipment it is their responsibility to maintain it at this standard.

School owned equipment

1. School issued and owned equipment must be returned in good condition, washed and ready to be used again on the schedule indicated by the coaching staff of each sport.
2. Some equipment that is purchased by the athletic department is not available for resale to students, and in some cases is custom made and must be ordered in quantity.

Lost Equipment or Equipment NOT Returned

1. Coaches will establish dates and locations for the purpose of returning school owned equipment back to inventory. Lost or damaged equipment will be charged at a rate of 125% of initial cost to cover the additional expense of ordering in limited quantities.

A credit will be issued and a \$25.00 late charge will then be applied to students who turn in equipment thirty days or more past the final deadline set by their coaching staff for return of equipment.

Students who do not return their equipment in the time frame allotted will have an athletic obligation placed on their record and the athletic department will view this event as a theft. Students will not receive their report cards and parents will lose their access to PowerSchool to view their child's grades and homework assignments until the obligation is paid. Stealing of equipment (West Mifflin Area's or anyone else's equipment) may result in suspension from all athletics for the period of one year (as per code of conduct)

Prayers at Athletic Contest

Due to the separation of church and state the West Mifflin Area Athletic Committee has established the following criteria for any religious passage and/or religious intentions at all our contest.

- The passage may be printed and distributed as an element of a program that is distributed at a Senior Night functions.
- The passage will not be read aloud.
- The passage will not have attention called to it by any formal public address system.

Responsibilities of Sportsmanship

A Goal for Everyone

The Player:

1. Treats opponents with respect.
2. Plays hard, but plays within the rules.
3. Exercises self-control at all times, setting an example for others to follow.
4. Respects officials and accepts their decisions without gesture or argument.
5. Wins without boasting, loses without excuses, and never quits.
6. Always remembers that it is a privilege to represent the school and community.

The Coach:

1. Treats own players and opponents with respect.
2. Inspires in the athletes a love for the game and the desire to compete fairly.
3. Is the type of person he/she wants the athletes to be.
4. Disciplines those on the team who displays unsportsmanlike behavior.
5. Respects the judgment and interpretation of the rules by the officials.
6. Knows he/she is a teacher and understands the athletic arena is a classroom.

The Official:

1. Know the rules and their interpretations.
2. Places welfare of the participants above all other considerations.
3. Treats players and coaches courteously and demands the same from them.
4. Works cooperatively with fellow officials, timers, and/or scorers for an efficient contest.
5. Is fair and firm in all decisions, never compensating for a previous mistake.
6. Maintains confidence, poise, and self-control from start to finish.

The Spectator:

1. Attempts to understand and be informed of the playing rules.
2. Appreciates a good play no matter who makes it.
3. Cooperates with and responds enthusiastically to cheerleaders.
4. Shows compassion for an injured player; applauds positive performances; does not heckle, jeer, or distract players; and avoids use of profane and obnoxious language and behavior.
5. Respects the judgment and strategy of the coach and does not criticize players or coaches for loss of a game.
6. Respects property of others and authority of those who administer the competition.
7. Censures those whose behavior is unbecoming.

Perspective on College Scholarships

Many high school athletes dream of becoming a professional athlete. It is a notable dream, but somewhat unrealistic for most high school athletes. Many parents dream of their son/daughter getting a football scholarship or their daughter a full-ride college scholarship. That, too, is unrealistic for most kids and parents. The type of athletic program offered in the West Mifflin Area School District (WMASD), emphasizes discipline, character, and cooperation. It accentuates the classroom and getting an education first. It doesn't emphasize winning at all costs nor displaying one player so that a given athlete is more important than the team. We want every athlete who is deserving of a scholarship to get one. Coaches in WMASD will do everything they can to help athletes go to college and to procure a scholarship, if one is merited. WMASD will offer a quality program that emphasizes education. Some parents will agree with the above for everyone except their son/daughter. To those parents we say, look

WEST MIFFLIN AREA ATHLETIC HANDBOOK

at the statistics. The 1993 study released by Utah State University shows the likelihood of a high school senior getting an athletic scholarship and moving on to professional athletics:

- 59% of high school football and basketball players believe they will get a college scholarship.
- 98 out of 100 high school athletes will never play in college.
- Only 1 out of every 100 high school athletes will receive a scholarship to a Division 1 school.
- Only 1 out of 12,000 athletes will go on to become a professional athlete.
- Only 1 in every 5,200 college football players will go on to become a professional player.
- 67% of all NFL players do not have a college degree.
- The average career in the NFL lasts 3-1/2 years.

Participation in athletics is highly valued in the West Mifflin Area community. The importance of scholarships, however, must be placed in a broader perspective.

How to be A Supportive Parent

Being a parent of a high school interscholastic athlete can be an extremely exciting experience. West Mifflin Area High School has students participating in a variety of different sports with multiple levels of competition, as well as many performing groups. Participating in this adventure with a student can be and should be a positive activity. Parental support is very important to these athletes, the high school, and the community.

The following are suggestions that may help promote a positive and productive experience for student athletes and their parents:

- Be positive. Being on a high school team is quite an accomplishment. Don't let playing time dictate the athlete's happiness. Celebrate the fact he/she was good enough to make the team. For example, of the 300 children who participate in youth baseball leagues, perhaps only 5-10 will be able to compete at the varsity level by their senior year. Each year a child remains on a team is a cause for celebration.
- Be supportive of the coaching staff in front of your student-athlete. Nothing can erode the intricate fabric of teamwork faster than athletes doubting the capabilities of their coaches. It can be a cancer that affects performance, confidence, and the edge needed to compete. Most teams are so evenly matched that many times it is this little extra that can spell victory or defeat. The coaches are trying to do their best at every moment. Any concern should be directed to the coach of a program. Coaches will listen, appreciate confidentiality, and give a timely response.
- Be part of a network. Whether a part of a booster club or not, parents can create very special relationships which are fostered over the careers of athletes by socializing with other parents. This may take place at games, team meals, after-game parties, etc. Parents need support too! Be positive. If a parent is concerned about a "rumor" that is being spread, he/she should call someone to verify and clarify. Don't perpetuate a rumor by passing it on or by remaining silent about an issue that could affect a program.
- Be a booster parent. Be satisfied with supporting the athletic department without ever thinking that you have to contribute time and/or resources to allow your student-athlete to play. This is one of the two biggest false stereotypes that are perpetuated from year to year. The other false stereotype is that if a parent complains to a coach, his/her playing time will be affected. A parent should donate to help make the experience for every athlete the best it can possibly be. Booster clubs do make a difference, but the spirit should be focused on the total program.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

- **Winning and losing.** To say winning and losing is not important is untrue; if it were, we would not keep score. The higher the level of play, the greater the emphasis will be on being competitive. West Mifflin Area takes great pride in past accomplishments, but it is not the outcome of a particular game or season which is important; rather, it is the process of becoming competitive that most student-athletes relish. If, as an entire community, the goal is to strive for being consistently competitive, then success will take care of itself.
- **Sportsmanship.** Parents should attend games and cheer for Titan success. Game officials do not favor one team over another and have nothing personal against any team. Yelling or cursing at officials or referees is unacceptable. Parents should also support the program by not criticizing coaching decisions at games. Parents have rights to their opinions, but voicing them inappropriately can never be construed as proper sportsmanship. Parents who demonstrate poor sportsmanship will be removed from a contest.
- **Keep things in perspective.** Having lofty expectations for a student-athlete is a normal, healthy, and challenging goal. In striving for these expectations, parents must be realistic. Not everyone will or can receive a college athletic scholarship, nor should a student-athlete's success be measured by a scholarship offer. West Mifflin Area has had a number of athletes receive scholarships based on the hard work of all stakeholders, particularly the athletes themselves. The coaching staff will assist interested students in finding an opportunity to continue athletics at the next level, but they will never recommend a school at which the athlete cannot potentially be successful. The athletes alone do not dictate the success of the athletic program. It is a joint venture of all stakeholders. If the contribution of any group is less than total, the entire program stands to lose. We have a tremendous amount of support for West Mifflin student-athletes by the coaches, teachers, administration, and the school board. Parental support, which is incredible at West Mifflin Area, is the most important.

Summary

Research has consistently established that students involved in co-curricular activities have a greater chance of success in adulthood. The WMASD athletic programs have been established to assist in the development of traits that will promote the long-term health and welfare of students at our school. We hope the information provided in this document helps to make your family's experiences with the WMASD's athletic programs enjoyable and rewarding.

“Ten Commandments of Sports - for Parents”

1. Be sure that your child knows that ...win or lose, scared or heroic...you love him/her, appreciate his efforts, and are not disappointed in him/her.
2. Try your best to be completely honest about your child’s athletic capability, his/her competitive attitude, his sportsmanship...and his ACTUAL skill level.
3. Be helpful...but do not coach him on the way to the field, pool, or court - or on the way back - or at breakfast.
4. Teach him/her to enjoy the thrill of competition...do not say, “Winning does not count”, because it does.
5. And hear this, parents: try not to relive your athletic life through your child in a way that creates pressure...do not pressure him/her because of your pride.
6. Do not compete with the coach...remember, in many cases the coach becomes a hero to his athletes, a person who can do no wrong.
7. Do not compare the skill, courage, or attitude of your child with that of other members of the squad or team...at least not in his hearing.
8. You should also get to know the coach so that you can be sure that his/her philosophy, attitudes, ethics, and knowledge are such that you are happy to expose your child to him/her.
9. Always remember that children tend to exaggerate, both when praised and when criticized. Temper your reactions when they bring home tales of woe... or heroics.
10. And finally...make a point of understanding courage and the fact that it is relative. Some of us climb mountains but fear a fight...some of us fight but turn to jelly if a bee buzzes nearby. A child must know: Courage is not ABSENCE of fear, but rather, doing something in SPITE of fear.

6. Tryout procedures and regulations:

Title: Selection of Cheerleaders

Purpose

This policy is applicable district-wide and will be published and made available to candidates in writing prior to tryout practices, effective with 2021 - 2022 participants.

Guidelines

A copy of the written policy governing cheerleading is to be posted in a place accessible to the general student population and general public (e.g. bulletin board, library, and school office). Posting is to be done prior to tryouts. Upon selection, compliance with the rules is mandatory. Noncompliance is cause for suspension or expulsion from the squad.

The school will utilize both oral and written media to make students, parents, or guardians aware of the date, time, and place of tryouts and the written policy governing high school and middle school cheerleading.

The faculty and other employees are to be made fully aware of this policy governing cheerleading.

Building directors are advised that any contemplated change of this policy must have faculty, student, and community input before a final decision is reached. Central staff is to be kept continually apprised of all activity in this area.

Pre-Tryouts

Any student that presents a valid medical excuse by a certified doctor that s/he cannot participate in tryouts shall have the opportunity to try out two (2) weeks after the initial tryout. Parents must make arrangements and pay for the same judges as used in the initial tryouts.

The sponsor must be notified no later than the actual tryout date if a special tryout is to be considered.

In an effort to minimize and/or eliminate the possibility of any disruptions or interference with the work of the squad, any communication with squad members or sponsors is to occur after the practice session.

The possibility of the purchase of additional apparel must be disclosed to the student or parent before the tryouts.

The school district will purchase warm-ups for new squad members. Additional warm-ups will be provided on an "as need" basis. Parents will have the option of buying warm-ups for their cheerleader.

Tryouts

WEST MIFFLIN AREA ATHLETIC HANDBOOK

Cheerleader applicants must be able to do the cheers and jumps consistent with P.I.A.A. rules.

Any cheerleader with three (3) years of service will be guaranteed a slot on that squad. However, s/he must try out. The tryout score earned will determine Captain and Co-Captain status.

All applicants will be enrolled students. Upon request, each student trying out will be given a personal copy of his/her score. Scores will be available in the Athletic office. Candidates will have their numbers and scores posted upon tabulation. If an applicant fails to try out (having a legitimate excuse, medical excuse, or death in the immediate family) the squad will not be announced for two (2) weeks.

Once a candidate has had the opportunity to try out for cheerleading and auxiliary units, a letter of commitment must be submitted the following day of the last try out.

Judges and Judging

Independent judges are to be chosen from the surrounding school districts or from an independent judging association. The judging panel shall have at least one (1) minority on the panel. Three (3) judges are adequate.

A letter contacting and soliciting the services of judges for the various tryouts shall be over the signature of the building principal.

Coach/Sponsors should not converse with the judges once tryouts have begun or during the tallying of the scores.

Ink shall be used in scoring.

The scores and the decisions of the judges are final. The minimum acceptable score for a cheerleader shall be seventy percent (70%) or better.

- 1) The primary function of a cheerleading squad should be to promote school spirit at athletic or athletic-sponsored events. Cheers, chants, and dance routines may be utilized to generate favorable crowd support for a team.
- 2) All cheers, chants, dances, or spirit raising activities should be well-planned, practiced, and organized to promote a controlled crowd response

WEST MIFFLIN AREA ATHLETIC HANDBOOK

- which supports the school team. Negative or derogatory gesture or language directed toward an opponent should be avoided.
- 3) All squads should be supervised by a cheerleading coach during all practices and performances. Any questionable pyramids or stunts will be referred to the Athletic Director of the West Mifflin Area School District.
 - 4) Cheerleading coaches should have a background in cheerleading, dance choreography, and/or gymnastics; first aid and CPR; and should be knowledgeable in proper cheerleading techniques and safety procedures. Coaches should not exceed their level of experience in teaching new activities.
 - 5) Cheerleaders shall travel together and use transportation which has been provided by the school district.
 - 6) All routines, pyramids, stunts, and gymnastics should be practiced to perfection at practice sessions prior to actual performance. Mats should always be used when learning new stunts. Always have spotter(s) at practice and at games with one spotter for each cheerleader who is elevated to shoulder height.
 - 7) Cheerleaders should be familiar with the environmental conditions and playing surfaces for which stunts, pyramids, and routines will be used.
 - 8) Pyramids and partner stunts may be part of the squads' routine, provided the following safety precautions are taken:
 - a) No pyramid or stunt formation is to be higher than the equivalent of two standing levels on shoulders.
 - b) No roll-offs, flips, or somersaults off pyramids or stunts off pyramids are permitted.

The board encourages all spirit coaches to work toward selecting their own squads as do coaches of other sports-related activities.

Information relevant to spirit tryouts should be included in a school's athletic/activity handbook. Any such tryout procedures and policies should be approved by the administrative body governing this activity.

West Mifflin Area School District Athletic Department *Booster Information*

BOOSTER CLUB GUIDELINES

[Back to Table of Contents](#)

Overview

This memo is provided as a courtesy to all West Mifflin Area School District booster/support organizations. The District recognizes the important role assumed by booster/support organizations for the benefit of West Mifflin Area School District students. However, it should be made clear that the District has no official affiliation, nor direct accountability, with any booster/support organizations, but we have used guidelines similar to these in the District and wanted to provide them to you in case you also wanted to use them. Booster groups and support organizations are separate and distinct entities from the West Mifflin Area School District, and the West Mifflin Area School District does not provide any oversight over any financial matters or operations of any booster group or support organization. The West Mifflin Area School District is not responsible for the proper accounting, reconciliation, or auditing of any booster group or support organizations' financial statements. The following are only suggested as guidelines that might be helpful to the organizations, if you choose to use them:

- 1) Booster/support organizations exist at the discretion of coaches and/or sponsors to promote athletics and activities in a manner consistent with the educational philosophy of the West Mifflin Area School District.
- 2) Booster/support organizations provide supplemental or full financial support for athletics and activities.
- 3) Booster/support organizations increase the opportunity for communication between parents/guardians and coaches/sponsors in areas of common interest.
- 4) Booster/support organization's charter or by-laws dictate all endeavors, including the authority to control the receipt or disbursement of funds. The West Mifflin Area School District accepts no responsibility for the proper accounting, reconciliation, or auditing of any booster/support organization's financial statements.
- 5) Concerns of individual members of booster/support organizations or of the booster/support organizations must follow the following reporting hierarchy:
 - Step 1: Coach/Activity Sponsor
 - Step 2: Athletic Director (if applicable)
 - Step 3: Building Principal
 - Step 4: Assistant Superintendent
 - Step 5: Superintendent
 - Step 6: Athletic Committee
- 6) All fundraising activities sponsored by booster/support organizations must follow legal guidelines. The athletic director and/or building principal must be informed of the fundraising activities in advance of the activities.
- 7) Any activities, which use the name of the school or implied support of the school or the District, adhere to the policies, procedures, and financial safeguards normally expected of public bodies.
- 8) Booster/support organizations must follow all District policies and procedures, including those pertaining to the use of District facilities. It is the responsibility of the booster/support organizations to be aware of all District policies and procedures.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

- 9) The school and booster clubs should do everything possible to inform parents of potential costs for involvement in extra-curricular activities. Parents new to West Mifflin are often very surprised to learn how expensive participation in these activities can be. One of the primary considerations of the booster club should be those families unable or unwilling to financially support extra-curricular programs. Students will **never** be denied participation because they are unable to pay. Booster clubs should budget for all needy students.
- 10) Booster clubs are organized to assist a program. Members perform many voluntary tasks during the course of the year. Whenever possible, they should be recognized for their hard work. Parents in the West Mifflin Area community have a keen interest in the extra-curricular programs and students having a positive experience with their involvement. Coaches and advisors should always be truthful with parents when assessing any situation. Parents do not have to pay to join a booster club in order for their children to participate in any program. Boosters may solicit membership to support the programs but parents do not have to join.
- 11) Booster members attending athletic events have to pay admission individually or the booster group itself may pay the admission for them. The only members that receive free admission are the elected officers of the in season competing athletic team's booster group. An example would be the officers of the football boosters would have free admission to the football game, but not to a soccer game and vice-versa. To be considered an elected officer, you must be one of the following: President, Vice President, Treasurer, Secretary, or Corresponding Secretary. Each booster group must provide the Athletic Office a list of the elected officers prior to each season so that these officers names can be placed on file.

General Guidelines:

Persons responsible for the transactions of the Activity Funds should have a good understanding of general bookkeeping and accounting knowledge.

- Sound business, budgetary, and accounting procedures should be utilized.
- Correct authorizations and approvals should be included for all transactions.
- Minutes must be maintained for all meetings.
- Account Balances must be monitored and kept in line with FDIC Guidelines.
- Booster Club Balances should be deposited in interest-bearing accounts.
- All records and documents should be retained.
- This includes but is not limited to unused tickets, listings of receipts, invoices, quotes, and contracts.

Accounting Guidelines

- Booster/support organization's charter or by-laws dictate all endeavors, including the authority to control the receipt or disbursement of funds. Although the West Mifflin Area School District accepts no responsibility for the proper accounting, reconciliation, or auditing of any booster/support organization's financial statements, provided below are general guidelines that may be beneficial for these groups.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

- The accounting system will account for the raising and expending of the clubs' money. Booster Clubs should develop policies and procedures that are applicable to their specific organization.

Budgets

Each activity should have a budget detailing the source and amount of revenues and expenditures. Budgets should be completed and approved at the first meeting of each fiscal year.

Budget to Actual Records: A final analysis of the activity's revenues and expenditures and reconciliation to the budget should be maintained.

A budget is required prior to each fundraising or revenue generating activity.

Prepare budgets at the beginning of the fundraiser.

Prepare final budgets and reports at the end of the fundraiser.

Revenues

Booster/support organizations raise money in a variety of ways to help fund their activities. Regardless of the size or volume of transactions, adequate internal controls and procedures over receipts are critical. Two important issues in dealing with receipts are classification and control. Controlling receipts is the most important step in the accounting process. All money collected from any source should be substantiated by pre-numbered receipts, tickets, and other records that can be used to verify amounts collected.

Some common types of receipts are generated from participation events, admission activities, and from fundraising events. Fundraisers generate profit for the organization by selling purchased items or services. In any sales transaction where the item sold is promised for future delivery, the buyer must be given a written receipt by the seller. The receipt should include the name of the organization, the item(s) to be delivered, anticipated delivery date, and the name of the advisor in case of any questions. In all other transactions the buyer will receive merchandise in exchange for money. All moneys are to be deposited with the Treasurer by the close of the school day on which they are collected. Money deposited should reference the organization and a listing of where the individual's money was collected from with the related amounts collected. The seller will receive a receipt for this deposit and will keep this receipt on file for organization records. Sellers are responsible for returning all unsold items and for obtaining a credit from the company. All invoices for items normally subject to sales tax must include the sales tax as part of the total purchase price for fundraising sales.

All Cash must be deposited. All money collected for any reason must be deposited daily. Money should not be taken home for safe keeping or left in desk drawers or file cabinets. All amounts must be kept in the organization safe or deposited in the bank. Any amounts not deposited daily should be placed in a safe. In the event the bank is closed or the treasurer is not available any amounts not deposited into the bank should be kept in the organization safe. Large receipts should be deposited in an overnight depository rather than placed in a safe.

Deposits for each sale should include detailed documentation. Each deposit must have the following information:

WEST MIFFLIN AREA ATHLETIC HANDBOOK

- Date of deposit, activity/organization's name, the breakdown of the money, reasons for collection, date of collection, and officer signatures which verify the amount being deposited.

In addition, deposits must:

- Be monitored by the officers.
- Be authorized by the officers.
- Be deposited to the account.

Include all details necessary to substantiate the receipt. Cash payments made from sales, gate or ticket receipts are prohibited.

Each revenue source should be deposited separately. Deposit records should be kept for all receipts and deposits by the Activity Personnel.

Tickets should be pre-numbered or recorded by number of tickets allocated to ticket sellers and reconciled with unused tickets and cash collections. Each deposit should have a record of the amount of tickets sold and the price per ticket sold. A person independent of the ticket sellers must control ticket numbers and restrict access to the ticket stock. Independent control and reconciliation of numbers is required. Appropriate supervision or separation of duties, as described above, adds to the reliability of the process.

Expenditures

All anticipated purchases should be outlined in writing prior to placing orders noting all terms and conditions and total costs of items to be purchased. This outline should be approved by the officers and attached to final invoices when presented for a check request for payment.

Monies can not be expended from these funds without the expressed permission of the officers.

Officer authorizations and approvals should be included for all transactions.

Loans are prohibited.

Checks must be written for ALL expenditures. NO Exceptions! NO Cash payments!

All payments should be made by check with proper substantiation. Substantiation includes: Proof that any money being withdrawn from any account is really justified, that the payee really does exist, and that the transaction is legitimate. Letters of correspondence, bills of sale, sales slips, or any other documentation can be used as proof that we are not writing checks to ourselves.

Payment can be made only from original invoice, not from statements or summaries.

NO invoice, NO payment.

Reimbursements for items should be minimal and never paid without a check. Checks should be written directly to vendors especially for items that are large in nature.

- Two signatures must appear on all checks.
- Appropriate signature cards must be on file with the Financial Institution.
- Three individuals may be on record.

Expenditures must be monitored by the officers. Expenditures must be authorized by the officers. Cash payments made from sales, gate or ticket receipts are prohibited.

Inventory

WEST MIFFLIN AREA ATHLETIC HANDBOOK

Safekeeping and recordkeeping of the organization's assets and inventory is required. A physical inventory should be taken each year. Safe storage of items is necessary. Inventory reports and records should be updated for purchases/disposals.

Payments for Services

Many times, an organization will be involved in hiring and paying for services such as dance bands, assemblies, entrance fees, or registration fees. Copies of contracts, registration forms, or letters of correspondence may serve as substantiation. Contracting with any individual must include a contract for service.

Internal Revenue Service (IRS) Form 1099 must be completed for all payments for services to one individual that meet the threshold of \$600.

Be a Supportive Parent

Being a parent of a high school interscholastic athlete can be an extremely exciting experience. West Mifflin Area High School has students participating in over 20 different sports with over 45 levels of competition, as well as many performing groups. Participating in this adventure with a student can be and should be a cherished activity. Parental support is very important to these athletes, the high school, and the community.

The following are suggestions that may help promote a positive and productive experience for student athletes and their parents:

- Be positive. Being on a high school team is quite an accomplishment. Don't let playing time dictate the athlete's happiness. Celebrate the fact he/she was good enough to make the team. For example, of the 300 children who participate in youth baseball leagues, perhaps only 5-10 will be able to compete at the varsity level by their senior year. Each year a child remains on a team is a cause for celebration.
- Be supportive of the coaching staff in front of your student-athlete. Nothing can erode the intricate fabric of teamwork faster than athletes doubting the capabilities of their coaches. It can be a cancer that affects performance, confidence, and the edge needed to compete. Most teams are so evenly matched that many times it is this little extra that can spell victory or defeat. The coaches are trying to do their best at every moment. Any concern should be directed to the coach of a program. Coaches will listen, appreciate confidentiality, and give a timely response.
- Be part of a network. Whether a part of a booster club or not, parents can create very special relationships which are fostered over the careers of athletes by socializing with other parents. This may take place at games, team meals, after-game parties, etc. Parents need support too! Be positive. If a parent is concerned about a "rumor" that is being spread, he/she should call someone to verify and clarify. Don't perpetuate a rumor by passing it on or by remaining silent about an issue that could affect a program.
- Be a booster parent. Be satisfied with supporting the athletic department without ever thinking that you have to contribute time and/or resources to allow your student-athlete to play. This is one of the two biggest false stereotypes that are perpetuated from year to year. The other false stereotype is that if a parent complains to a coach, his/her playing time will be affected. A parent should donate to help make the experience for every athlete the best it can possibly be. Booster clubs do make a difference, but the

WEST MIFFLIN AREA ATHLETIC HANDBOOK

spirit should be focused on the total program. - winning and losing. To say winning and losing is not important is untrue; if it were, we would not keep score. The higher the level of play, the greater the emphasis will be on being competitive. West Mifflin Area takes great pride in past accomplishments, but it is not the outcome of a particular game or season which is important; rather, it is the process of becoming competitive that most student athletes relish. If, as an entire community, the goal is to strive for being consistently competitive, then success will take care of itself.

- Sportsmanship. Parents should attend games and cheer for Titan success. Game officials do not favor one team over another and have nothing personal against any team. Yelling or taunting officials or referees is unacceptable. Parents should also support the program by not criticizing coaching decisions at games. Parents have rights to their opinions, but voicing them inappropriately can never be construed as proper sportsmanship. Parents who demonstrate poor sportsmanship will be removed from a contest.

- Keep things in perspective. Having lofty expectations for a student-athlete is a normal, healthy, and challenging goal. In striving for these expectations, parents must be realistic. Not everyone will or can receive a college athletic scholarship, nor should a student-athlete's success be measured by a scholarship offer. West Mifflin has had a number of athletes receive scholarships based on the hard work of all stakeholders, particularly the athletes themselves. The coaching staff will assist interested students in finding an opportunity to continue athletics at the next level, but they will never recommend a school at which the athlete cannot potentially be successful.

The athletes alone do not dictate the success of the athletic program. It is a joint venture of all stakeholders. If the contribution of any group is less than total, the entire program stands to lose. We have a tremendous amount of support for West Mifflin student-athletes by the coaches, teachers, administration, and the school board. Parental support, which is incredible at West Mifflin, is the most important. Parents are the ones with the most vested interests in seeing student-athletes have a positive experience.

Conclusion

This memo is provided as a courtesy to all West Mifflin Area School District booster/support organizations, to assist with guidelines that you might want to use with your organization. These are similar to guidelines we use in the District and hope you find them helpful. The District recognizes the important role assumed by booster/support organizations for the benefit of West Mifflin Area School District students. However, it should be made clear that the District has no official affiliation, nor direct accountability, with any booster/support organizations; so, use of these guidelines is voluntary.

ATHLETIC DEPARTMENT GUIDELINES/INFORMATION

Principles, ethics, and a commitment to sportsmanship guide the athletic department at West Mifflin Area.

ATHLETIC PRINCIPLES

[Back to Table of Contents](#)

The athletic program will:

- Provide opportunities for students to participate in a variety of sports. Students and parents are the ones who make the determination regarding specializing in one sport.
- Foster training in conduct, game ethics, and sportsmanship for participants and spectators.
- Assist participants in the development of required physical and sports-specific skills.
- Engender respect for local, state, and national rules and policies that govern the school program.
- Be an integral, well-coordinated part of the school curriculum.
- Be administered by school authorities and based on a spirit of amateurism.

The athletic department believes:

- Students are our highest priority.
- The dignity, worth, and self-esteem of participants should be paramount to all athletic activities.
- The most important result of competition is the development of life-long values and skills.
- The athletic program is an integral part of the high school experience.
- High school athletics should be fun and rewarding, and they are most beneficial when they are competitive.
- A well-designed program promotes community and school pride.
- Open communication and mutual respect among coaches, parents, and athletes provide the foundation of a successful athletic program.
- Morale, satisfaction, and performance are enhanced when athletes work together as a team.
- Well-qualified coaches and program directors are important components of a successful athletic program.
- Positive parent support and involvement enhance student growth and program

CODE OF ETHICS

It is the duty of all concerned with high school athletics to:

- Emphasize the ideals of sportsmanship, ethical conduct, and fair play.
- Show courtesy to visiting teams and officials.
- Establish a cordial relationship between visitors and hosts.
- Respect the integrity and judgment of game officials.
- Encourage leadership, use of initiative, and good judgment.
- Recognize that the purpose of athletics is to promote physical, mental, moral, social, and emotional well-being.
- Remember that an athletic contest is only a game-not a matter of life and death-for player, coach, school, officials, fans, community, state, or nation.
- Establish player safety and welfare as the highest priority.
- Provide proper supervision of students at all times.
- Use discretion when criticizing and/or reprimanding players.
- Instruct players in the safe use of equipment.
- Avoid suggesting, providing, or encouraging any athlete to use a non-prescriptive drug, anabolic steroids, or any substance to increase physical development or performance that is not approved by the United States Food and Drug Administration (USFDA), Surgeon General of the United States or the American Medical Association (AMA).
- Avoid recruitment of athletes from other schools.
- Ensure equal opportunity for all students without regard to gender, race, creed, color, national origin, ancestry, or economic capability.

[Back to Table of Contents](#)

SCHOOL-BASED AND SPECTATOR ACTIVITIES

- a. Spectator Activity – Timing for this type of activity is of major importance because of the negative effect that competition with other high-interest activities may bring about. Saturation of the community with an excess of similar activities can be equally damaging. Spectator activity is particularly vulnerable to this phenomenon. It is also important to recognize that national and state athletic associations impose restrictions on the number of contests that may be played by athletes in any season and also limit the degree to which players can be involved in fundraising. Accordingly, the membership of any fundraising team representing the school must be carefully scrutinized so as not to violate existing regulations.

Access to the facility used for spectator activities is also important and should not be overlooked in long-range planning. This facility should be reserved through the school administration well in advance of the desired date because the school auditorium and gymnasium are typically in high demand by faculty, student, and community members.

- b. Re-sales – Re-sales can also be extremely productive in terms of revenue, but a number of details need attention before engaging in this type of fund raising. First, it is important to decide what type of resale will be undertaken. Popular events drawing the largest turnouts are clothing and sport equipment re-sales. All publicity should focus on the profit-sharing concept and on the types of items to be sold. Additionally, an understanding should be developed concerning the screening of donated items, the personnel who will staff the actual sales site, and the mechanics of display and sales. Check in and check out procedures, as well as arrangements for handling and banking funds, should be arranged prior to the actual resale date. Again, arrangements for an adequate size facility must be initiated through the school district well in advance.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

- c. Car Washes, School Fairs, Casino Nights, Lock-Ins, Haunted House, Dances, and Carnivals – These activities can be good supplements to fundraising activities if timed properly or if conducted concurrently. High-interest activities such as pancake breakfasts featuring a “name” speaker or entertainer can also be very productive events for a minimum investment of funds and time. Pet shows, sports information seminars (safe diet seminars), sports equipment shows can all be carried on at school facilities making use of local talent or merchandise. In all large group activities, provisions must be made for complying with ordinances concerning facility capacities, litter, noise, or other disturbances of neighboring residents. As with other large group activities maintaining community goodwill is of great importance when conducting supplemental fund raising.
- d. Road Runs – Road runs and marathon walks have also been used to raise funds in some communities. In these activities, entry fees and monetary commitments to the mileage efforts of the runners and walkers provides a dual mechanism for fund raising.
- e. Coupon/Carton Label or Box Top – Nationally recognized fast food and soft drink companies will redeem coupons or carton labels or box tops for cash, e.g., 25 cents per coupon or label. Certain restaurants or super markets are designated as sales outlets and coupon-label redemption centers. During this period, the local school(s) and booster club(s) conduct intense advertising campaigns to encourage food or beverage purchases at these outlets.
- f. Famous Alumni Events – Luncheons, breakfasts, pre-season fund raisers, golf outings, parent nights, and homecoming events can be enhanced by the attendance of a famous graduate. Ticket sales campaigns or other fundraising initiatives can be coordinated with events such as these.
- g. Dance Lessons/Theme Dance – Selling tickets for a “line dance,” “Country Western” dance, 50’s – swing dance, etc., can be profitable and fun. Participant enjoyment can be provided at no additional cost.
- h. Item Sales/Food Sales – sales within a student body or from the school store, candy, nuts, athletic clothing, pizza, and calendars are strong sellers.
- i. Special Event Sales birthday cakes or flowers, valentines and congratulation cards are extremely popular. Parents of athletes pay a fee for production and delivery of the item.
- j. Cookbooks for (sport name) Athletes – Parents and/or coaches provide recipes. Cookbooks are sold as fundraising items to begin a season.
- k. Art or Craft Shows – These can be conducted individually or in conjunction with carnivals or re-sales. Student, faculty, or local artists provide artwork or craft items and donate a percentage to the athletic department.
- l. Athletic Memorabilia Sales or Auctions – Football helmets that are no longer serviceable can be made into lamps with minimal investment. Paint and decals can be used to recondition the helmet and plank material to provide a base platform. Switches, bulbs, and receptacle hardware can be purchased. JA certified electrical should install all electrical wiring. Old footballs or basketballs can be cleaned and reconditioned. Old panels can be painted and used for autographs.
- m. Cake Auctions – Families or local bakers donate cakes which are auctioned during a larger fundraising event. Cakes are sold for \$7.00 to \$12.00 depending on size and composition.
- n. Youth Sport Tournaments (Wrestling, Basketball, Swimming) –Alumni or booster groups act as tournament organizers, ticket sellers, ticket takers, crowd supervisors, and scorers/timers. If any members are certified contest officials, they may be able to donate their services during tournament competition. Ticket sales, concession sales, program sales, and athletic item sales are all fundraisers that can be incorporated along with raffles, auction, or games of chance.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

- o. Handy Work/Yard Work Auction – Athletes, alumni, booster club members, cheerleaders and pom-pom squad members make themselves available for yard work, window washing and cleaning projects. Community residents pay for the student services by donating significant sums to the booster club. An auctioneer sells the services to promote volume (e.g., lawn mowing starts at \$20.00, mowing up to \$35.00 during the auction).
- p. Cautions and Considerations –A number of safety, product liability, and public relations guidelines are important to consider before entering into various fundraising endeavors.

These include:

- 1) Locally prepared or homemade foods - It is important to comply with local health department regulations and inspection requirements. The handling and sale of foods may require a permit issued by the local health department. Noncompliance with this requirement may be grounds for an automatic fine and could also provide substantive grounds for litigation in the event of a food poisoning case.
- 2) Storage of food stuffs – An occasional oversight in preparation or anticipation of a large demand may create a large inventory of easily spoiled food stuffs. Adequate cooler or freezer space is a major concern to prevent food loss and toxicity.
- 3) Affiliation with companies without certified quality control – Newer, highly-competitive companies may offer materials or food stuffs yielding a higher profit margin than the products of historically stable “name” companies. This competitiveness may be accomplished at the expense of quality and sanitation control or because the newcomer has no product liability insurance.
- 4) Product sizes, weights, and measures - Extremely poor customer relations are developed when food products are smaller than advertised or when clothing sizes are not accurate. In all cases, be sure to check the replacement of “buy back” policies of the company in the event of customer dissatisfaction. Again, by selection of a “name” supplier, the likelihood of accurate measures and weights is enhanced.
- 5) Insurance and Taxation Considerations
 - A) Insurance Considerations – It should not be assumed that school district liability insurance will automatically cover losses, damages, or liabilities incurred as a result of fundraising on behalf of district activity programs. A number of legal variables will be considered by courts or insurance companies in the event of injury or loss to a salesperson or to a customer. These include:
 - a. Who sponsored the fundraising activity – school or booster club?
 - b. Who benefits from the fundraising activity?
 - c. What was the age of the student who was injured in fundraising?
 - d. What directions were given to sales personnel?
 - e. Did the student disobey directions?
 - f. Was supervision needed or provided?
 - g. What conditions or dangers were inherent?
 - h. Did the injury occur on school property?
 - i. Was the accident or injury foreseeable? Was an “Act of God” involved?
 - j. Was the student pressured in any way to participate in fundraising/
 - k. What was the proximate cause of the accident or injury?Because of the many variables, it is strongly suggested that booster clubs and other support programs investigate the cost of liability insurance.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

- B) Taxation Considerations – State tax laws usually exempt schools and non-profit, fundraising agencies from taxation. However, it is important to check the exact provisions of statutes before making such an assumption. Several states restrict the total revenue that non-profit organizations can accumulate, while others place restraints on the number of fundraising events that any single organization can hold. Most states require the maintenance or organization records, although filing of an annual tax report is not usually required. In addition, many state revenue departments provide tax-exempt status to bona fide, non-profit agencies certified by issuance of a tax-free number that enables them to purchase supplies such as materials for carnivals and dances without paying state sales taxes.

Many high schools and colleges have used a combination of efforts for successful purchases of a number of capital athletic training items, e.g., weight machines, projectors, whirlpools, pitching machines, uniform goods. In addition, when pep band, cheerleader and pom-pom budgets have been exhausted, these funds have made possible travel and admission to state tournaments which these organizations would not otherwise have been able to attend. This activity must be conducted in the highest sense of ethical support for the school and is best accomplished with involvement of school personnel and by developing guidelines designed to avoid ill will and legal liability.

Finally, no single program is “right” for a particular high school. Trends, values, needs, and fads will dictate community responses and require the sports director or fundraiser to be constantly alert to changes in each area.

THE WMAAC DOES NOT RECOMMEND OR CONDONE DOOR TO DOOR SELLS.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

The Center for Sports Medicine's Athletic Training Staff provides athletic training and sports medicine services at West Mifflin Area High School. Should an athlete require additional medical care, the ATC will assist the family in coordinating the proper care. This may be accomplished through contact with the family's Primary Care Physician. If necessary the athlete may be referred to the UPMC Health System, Sports Medicine and its affiliates, or to an outside source for further evaluation and/or treatment. The ATC is employed by the UPMC Health System, Sports Medicine and will follow policies and procedures of UPMC Health System, in conjunction with certain guidelines set forth by West Mifflin Area High School.

The ATC is responsible for the return of the athletes to their sport through a progressive, functional, and innovative rehabilitative program, which is under the guidance of the team physician. Whenever possible the ATC will strive to integrate education about athletic injuries so that the athletes can be motivated to lead healthier lifestyles. The ATC is committed to using any technology available and affordable in the delivery of these services. The ATC will remain committed to the continuous upgrading of the equipment used in the delivery of sports medicine services so the athletes will be assured for the most modern care available.

The philosophy places a high value on health and wellness, thus enabling injured student athletes to return to competition as soon as is medically safe. These services will be provided to maintain the highest standards of quality consistent with the National Athletic Trainers' Association's Code of Professional Practice and credentialing statutes of the Commonwealth of Pennsylvania. This exam is comprehensive and includes a physical exam and health history, in accordance with PIAA and WPIAL guidelines; emergency contact information; and acknowledgement of possible risk and injury. In the event a medical condition is identified, the ATC and physician will make appropriate referrals for physical evaluation prior to the athlete's participation in the sport.
- B. No athlete may participate without proper medical clearance by a medical doctor. A coach who permits an athlete to participate without a proper physical exam is placing him/herself in a position of being legally responsible should an injury, illness, or death result from the athlete's participation.

FACILITIES

The West Mifflin Area School District takes great pride in the facilities we have to offer our student-athletes and it is the mission of the West Mifflin Area Athletic Committee to continue to provide our athletes with the best possible venues to compete in.

The Committee realizes the needs of the community to utilize the facilities we have within our district; however, our first commitment is to our student-athletes. The committee invites all organizations to use our facilities, but outside organizations must understand our co-curricular activities have precedence over any outside organization.

In order for an outside organization to secure our facilities, they must first complete the application process and return it to the building principal at the school they want to utilize. The applications for building use are available in the main office at each school in the district. The building principal will then correlate the dates with the activities that are taking place within the school to ensure the facility is not being used. In the case of a date that is in conflict with an activity at the school the building principal or his/her designee will contact the organization to inform them of the situation and give a list of possible open dates to accommodate the organization's needs. Finally, the building principal will sign-off on the application and forward the application to the board of directors.

NOTE: *NO Sunday activities will be granted through the building principal's office. All Sunday activities **must have board approval. However, you must prepare the proper documentation as outlined in West Mifflin Area Policy and Procedure Manual. Policy 707 dictates the procedure and documentation needed in order to secure a facility permit. The policy and forms are located in the appendix.***

At no time are parents/guardians or nonparticipating persons permitted on the playing area. This rule has been initiated because of the national trend of nonparticipating people harassing, assaulting, and violating the integrity of athlete competition. It is the mission of the WMAAC to assure our players, coaches, referees, and spectators a safe, orderly environment to watch an athletic competition. If any

WEST MIFFLIN AREA ATHLETIC HANDBOOK

person violates this regulation the WMASD will prosecute that person to the fullest extent of the law as possible.

Football field – No students are permitted to walk around the field during the game, only exceptions are if a student is utilizing the restroom or concession stand. At no time is any person permitted in the locker room area beneath the bleachers. No unauthorized personnel will be permitted on the field without the Athletic Director’s permission. A field pass is required.

Gymnasium – No person is permitted to cross the in bounds lines and no one is permitted to stand underneath the basketball hoops during the contest.

Baseball/Softball fields – No person is permitted in the fenced area or dugouts and no one is permitted to stand behind the backstop during the game.

Athletic/Activity Pass Fee Scale

The standard fees for all athletic competitions will be as following:

- Adults \$6.00 per event
- Students \$3.00 per event

The West Mifflin Area High hosts approximately 75 home events yearly that the public has to pay a fee to attend. It is the West Mifflin Area Athletic Committee position to offer the residents of community an opportunity to purchase passes for these events.

Press Box Management

Because of the pressure of deadlines and the need for reporters to have clear lines of vision and efficient communication with publishers or stations, press-box management techniques can significantly affect media relations.

While most high school press-box management efforts will be small in scope, good order and efficiency are necessary requirements. Conversely, if athletic directors are asked to host an invitational or state qualification tournament, this management task may be significantly expanded.

In the sections that follow, management guidelines and techniques have been suggested that are designed to enhance effective press-box operations.

a. General Considerations

Traditionally, the press-box is reserved for members of the working press, electronics media representatives, spotters, coaches, film crews, and scouts. In some instances, a VIP section may be designated if space permits. Regardless of the number of specific persons authorized for admission to the press box, specific procedures should be implemented.

b. Specific Press Box Management Procedures

WEST MIFFLIN AREA ATHLETIC HANDBOOK

Following are suggestions for specific management procedures for access and seating:

- 1) Location may be dictated by locations of telephones, power sources, or computer hookups.
- 2) Window spaces may dictate location of film or video crews.
- 3) Local media representatives who traditionally have covered season contests for the host community should be given priority in seat assignments.
- 4) Media representatives of participating communities should be given next priority.
- 5) Media representatives of neighboring communities are given lowest priority seats.
- 6) For tournaments, all media representatives should be invited to apply for credentials, seating assignments, and media brochures or packets.
- 7) Reporters and statisticians should be provided stable, clean writing surfaces.
- 8) Press packets should be placed at each media station, including accurate rosters, up to date statistics, and guidelines on equipment access and interview procedures.
- 9) Radio station personnel may prefer isolated locations to reduce broadcast interruptions from crowd noise or other broadcasters.
- 10) VIP seating may be limited to the highest-ranking school district officials or elected community leaders depending on available seats.
- 11) Attempt to assign broadcast media seats where their vision will not be obstructed by crowd movements.
- 12) Place name labels at each assigned seat. Correlate all name tags and seat assignments to a master seating chart which is kept by the press box supervisor(s).
- 13) Press box door guards should be chosen for their firm, calm decorum and courteous interactions. They will say “no” to a large number of people who will not be similarly courteous.
- 14) Additional press box supervisors may be necessary if a large number of representatives are expected to cover a tournament. Unauthorized seat exchanges are not uncommon and TV crews will attempt to change assigned shooting locations. Multiple copies of the seat/window assignment charts are imperative.
- 15) During tournaments, all media representatives should be provided with “Press” or “Media” badges for ease of press box access and identification.
- 16) With available seating allocations, media credentials should be mailed to all bona fide representatives who request them. If requests arrive late, a central pick-up point should be identified.

Guidelines For Announcers

- a. Press box field announcers have important responsibilities and obligations that must give direction to the type of information that is announced during a contest. Accurate game information is a minimum requirement and should include:
 - 1) Football
 - a) Down and yards to go.
 - b) Who carried the ball, and yardage gained or lost.
 - c) Who made tackle, interceptions, fumble, recovery, etc.
 - d) Who received pass, or who broke up a pass defensively.
 - e) Identify what penalties were assessed, after official gives signal.
 - f) Name of scorer (touchdown, field goal, point after).
 - 2) Soccer

WEST MIFFLIN AREA ATHLETIC HANDBOOK

- a) Player in control.
 - b) Player who shoots.

 - d) Saves by goalkeeper.
 - e) Players who intercept passes or break up offensive plays.
 - f) Penalties (wait for official signal).
 - g) Penalty kicker.
 - h) Direct and indirect free kicker.
 - i) Goal kicker.
 - j) Corner kicker.
 - k) Scorers and method.
 - (1) Clear shot

 - d) Player that is defending
 - e) Player with rebound
 - f) The score
 - g) Player who inbounds ball
 - h) Player who is fouled
 - i) Player who committed the foul
 - j) Number of foul shots
- b. Announcers Should Avoid:
- 1) All comments about officials. Wait until an official signal has been given before announcing a penalty. You may announce that a flag has been thrown, but wait for the official's signal for the penalty.
 - 2) Praising or berating any individual player by name.
 - 3) Assume or announce play situations in advance, such as, "It looks like they will have to punt" or "It's long yardage so we'll probably see a pass," etc.
 - 4) Using any derogatory or inflammatory remarks.
 - 5) Avoid emotion – remain impartial.
 - 6) Negativity. All public address information announced should be positive. This pertains to both the home and the visiting team.
- c. Prior To Game Time the Announcer Will Announce:
- 1) Sportsmanship message.

West Mifflin Area High School, through its athletic department, extends to you a cordial welcome.

The West Mifflin Area High School and the _____ High School are members of the WPIAL and PIAA and abide by the rules and regulations as set

WEST MIFFLIN AREA ATHLETIC HANDBOOK

forth by the association to maintain high standards of conduct, competition, and relations with member schools.

These are high school teams who are playing here today; they are friendly rivals as members of opposing teams. This, basically, is the theme of interscholastic athletics – the idea of friendly competition.

The officials assigned to this game have been selected and assigned according to procedures adopted by the WPIAL. The officials are:

Referee _____

Umpire _____

Their experience and integrity qualify them for their important part in this friendly interscholastic game. An attitude of good sportsmanship should be reflected by all spectators.

And now the introduction of the members of each team.

- 2) Anti-drug message; public service announcement
 - 3) National anthem.
 - 4) During the game, reminders should be given to emphasize sportsmanship expectation.
 - 5) Acknowledgment of sponsors and donors (e.g.; scoreboard, press box, concession stand) can be made during time outs and/or between periods.
- d. At the conclusion of each game, the announcer should remind everyone to buckle up and drive safely.

Press Packets

The following items should be contained in a press packet:

- a. Team Information
 - 1) Names, heights, weights, jersey numbers, year in school

Concession Stands

The concession stands will be maintained by the booster group(s) that is affiliated with the athletic team which is competing. Booster groups are reminded to maintain the concession stand's cleanliness and working condition for the next group who has to use it. The use of the concession stand is a privilege that the West Mifflin Area School District has extended to the boosters to aid in the fundraising efforts for that particular sport. The West Mifflin Area School District has the right to revoke the privilege to any booster group that does not adhere to the rules and regulation set forth by the Board of Education.

In case of a playoff event, the athletic contest will dictate the booster group who may occupy the concession stand. For example, if we host a boy's soccer game, it is then the decision of the boy's soccer boosters to operate the concession stand. They may choose to share the responsibility of operating the concession stand with another organization or they may decline the opportunity to operate the concession stand for a playoff contest. If the first party declines the opportunity to operate the concession stand, they have no rights to or part of the proceeds made during that event.

If the first party denies the opportunity to operate the concession stand, the procedure to solicit another organization will be as the following:

The building principal or his designee will contact the other organizations to receive letters of interest. If multiple groups demonstrate an interest, all parties will be contacted and a lottery will be held for the first opportunity and from the drawing of names a rotation will be established. For example, soccer denies the opportunity and all the other groups show an interest, the building principal will contact all the organizations for a lottery. The building principal will pull all the organization's names to establish the rotation. The rotation will be the first group's name pulled will then have to fulfill the duties of running the concession stands. The second name will automatically be the next in line if/when this situation arises again.

Coaches

Coaches are responsible for having their squads on the playing field and physically ready at the scheduled game starting time. Coaches will be "role models" for players.

Before the game, each coach will meet with the referee and umpire and those game officials will:

- Present a list of the names of all officiating crew members,
- Ask for verification that all players are wearing legal and required equipment,
- Ask if the team uses unusual formations or plays that require referee notification before the down,
- Verify the length of the halftime intermission,
- Verify that emergency medical coverage is available,
- Set the time of player introductions by the stadium announcer, and
- Set the time of the coin toss.

For the coin toss, team captains must be (uniformed) players. No more than four captains from each team may be present at the coin toss and only one from each team shall be designated as the spokesman.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

NOTE: The options available to the winner of the coin toss are to:

- (1) Defer the choice to the second half,
- (2) Choose to receive,
- (3) Choose to kick, or
- (4) Choose a goal to defend.

There is no rule requirement that a team has to warm-up on the field before the start of the game. Before the start of the second half, teams are required to warm-up for 3 minutes, but not the type of warm-up. Therefore, time spent running from locker rooms to the playing field can be counted as warm-up activity.

The game officials assume authority for the contest, including penalizing unsportsmanlike acts, 30 minutes prior to the scheduled game starting time, or as soon thereafter as they are able to be present. Coaches are responsible for all personnel in their respective team boxes.

Coaches should use sideline officials (e.g., linesman and line judge) as their primary sources on the-field information. If severe weather conditions warrant it, the crew of officials is authorized to delay or suspend the game.

The "35-Point Rule" applies to all PIAA high school games. When the difference in opponents' score is 35 or more points in the second half, then the game clock will run continuously (including after incomplete forward passes, after scores, and after scrimmage kicks) except for time outs following scores and change of goals between periods.

By mutual agreement of the opposing coaches and the referee, any remaining period may be shortened at any time or the game terminated.

NOTE 1: To shorten a period or remaining periods when the game is played in hot weather, opposing coaches meet with the referee in the center of the field to finalize the decision. The referee indicates the end of the shortened period by holding the football overhead in one hand (signal #14 in the signal chart). The stadium announcer should inform spectators of the decision.

NOTE 2: The decision to shorten periods or terminate a game when weather conditions are severe (e.g., electrical storms, cold/windy conditions) can be made off the field. The stadium announcer should be notified of the decision and he/she should inform the spectators.

After the game, coaches should refrain from making statements to print media and announcers concerning the ejection of players or disqualification of team box personnel. The contest manager will act as the contact between game officials and print media personnel and announcers regarding unusual situations that happened during the game, including ejections and disqualifications.

Line-to-Gain Crew

The line-to-gain crew must be capable of functioning in an efficient and timely manner. Top performance by the line-to-gain crew is essential for the administration and conduct of the game.

This crew of at least three persons consists of a down box operator and two persons to hold the rods of the 10-yard line-to-gain chain. The down box operator will attach the clip to the line-to-gain chain. Game official (e.g., the linesman) may ask that a fourth person operate the clip.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

One, two or three additional persons may be added to the crew to operate an optional auxiliary down box and one or two optional line-to-gain ground markers.

Members of the line-to-gain crew are expected to be businesslike and impartial. The referee has rule book authority to replace incompetent crew members.

As soon as possible before the game, line-to-gain crew members should report to the contest manager and linesman so that their presence is known.

Before the game, on the playing field, the line-to-gain crew should meet with the linesman at least 15 minutes before scheduled game starting time on the sideline opposite the press box to:

- Inspect the line-to-gain equipment to ensure that it is in good working order.
NOTE: line-to-gain equipment includes:
 - (1) The official down box unit with flat tip covered with a protective cap,
 - (2) Line-to-gain chain (10-yard chain and two rods with flat tips covered with protective caps) or other measuring device,
 - (3) Clip (usually supplied by the linesman) to attach to the chain at the start of a series of downs,
 - (4) Distinctive vests or jackets,
 - (5) Auxiliary, unofficial, down indicator operated on the sideline opposite the official down box,
 - (6) Auxiliary line-to-gain markers (usually flat, orange or red-colored, plastic sheets).
- Put on distinctive vests or jackets so they are easily recognized by game officials, participants and spectators.
- Discuss with the linesman procedures to be used in operating the down box and line-to-gain chain (or other comparable equipment on the sideline opposite the press box).
- Verify that the line-to-gain chain is the proper length by stretching it between 10-yard stripes.
- Assist the linesman in fastening colored tape to the midpoint of the 10-yard chain.
NOTE: Tape at the 5-yard mark of the chain will help the linesman and referee in determining if a 5-yard penalty will give a team a first down.
- Review placement of the down box and red stake of the line-to-gain chain at the start of a series of downs.

NOTE 1: Specifies that the ball must be 10-7/8 inches to 11-7/16 inches in length.

NOTE 2: The down box is placed on the yard line through the foremost (front) point of the football when the football is placed on the ground for the first-down of the series.

EXAMPLE 1: After a touchback the down box should be placed on the edge of the 4-inch wide 20 yard line that is closest to the goal line.

EXAMPLE 2: After an incomplete 4th down legal forward pass the down box is moved to the other end of the football. That is, after this change of possession, the new offensive team "gains 11 inches," the length of the football.

EXAMPLE 3: If it is 4th down and goal-to-go with the foremost point of the football 6 inches from the goal line and an incomplete legal forward pass is thrown, then, for the subsequent first down, the down box is placed 17 inches from the goal line, not 6 inches from the goal line.

Auxiliary down box operator and the operator of the auxiliary line-to-gain marker should meet with the line judge at least 15 minutes before the game starting time on the press box side of the field to:

WEST MIFFLIN AREA ATHLETIC HANDBOOK

- Put on distinctive vests or jackets so they are easily recognizable. Review procedures for the movement of these optional pieces of equipment.

Down box operator during the game at the beginning of a new series of downs:

- Sets the down box rod at the foremost (front) point of the football.
NOTE 1: The linesman will assist the down box operator in setting the down box unit on the proper yard line.
NOTE 2: The rear rod of the line-to-gain chain will be set adjacent to the down box after the down box is set in proper position.
- Places a clip on the 10-yard chain at the intersection of the sideline and yard line closest to the rear rod of the line-to-gain chain.
NOTE: A fourth crew person can be assigned to fasten the clip to the chain.
- Moves the down box off the sideline, but stays within 6 feet of the sideline. That is, the down box and operator remain out-of-bounds.

Down box operator during the game:

- Changes the down number at the direction of the linesman only after setting the down box at the new spot of the football.
- Drops the down box to the ground and retreats when player action comes to the sideline.
- Takes his/her position on the sideline when it is goal-to-go.
NOTE: The line-to-gain chain should not be set on the sideline when it is goal-to-go.
- Retrieves the football following the points after touchdowns and field goal attempts unless the ball person has been assigned this duty.
- Places the down box adjacent to the front rod of the line-to-gain chain when a measurement for first down occurs; the previous down number is still displayed on the box.
- Reports to the linesman any problems in moving the equipment because of interference by players, substitutes, or other sideline personnel; the game officials will discuss the matter with the coaches.

Line-to-gain chain crew during the game at the beginning of a new series of downs:

- Sets the rear rod adjacent to the down box rod.
- Waits for the clip to be attached to the chain.
- Moves the line-to-gain chain off the sideline but stays within 6 feet of the sideline.

Line-to-gain chain crew during the game:

- Operates on the sideline opposite the press box.
- Drops rods to ground and retreats when player action comes to the sideline.
- Carries rods onto field for first down measurements.
NOTE: The front rod is given to the umpire who will handle it for the first down measurement.
- Reports to the linesman any problems in moving the equipment because of interference by players, substitutes, or other sideline personnel.
- Removes the line-to-gain chain from the sideline when a series of downs starts goal-to-go.

Crew members in charge of auxiliary line-to-gain ground markers should lay the markers on the ground with the pointed end touching the sideline at the yard line that is 10 yards in advance of the down box.

Entire line-to-gain crew after the game:

- Assemble all equipment (down box, line-to-gain chain or other measuring device, auxiliary down box, auxiliary line-to gain ground markers, clip, vests, and jackets).
- Inspect equipment for hazards and malfunctions and report them to the contest manager.

- Prepare the equipment for easy use for the next game.
- Place equipment in proper storage area.

Field Clock Operator

The field clock operator must know football timing rules, game officials' signals, and the clock's mechanism. Attentiveness of the field clock operator ensures that the game will proceed in a timely manner.

Before the game the field clock operator should meet with the referee and line judge (4man crew), or referee and back judge, preferably in the officials' locker room, to discuss procedures that will be used:

- Before the game, what amount of time will be set and run-off the field clock?
NOTE: Typically, the field clock starts running 20 minutes before scheduled kick-off time.
- During the halftime intermission, what amount of time will be set and run-off?
NOTE 1: Halftime intermissions can be 10 to 20 minutes in length. Fifteen minutes is the typical length of the halftime intermission, but it can be increased to a maximum of 20 minutes for special activities, provided opponents have been notified no later than 5 minutes prior to the game. By mutual agreement of the opposing coaches, the intermission may be reduced to a minimum of 10 minutes.
NOTE 2: The length of the half time should be displayed at the start of the intermission.
NOTE 3: Some referees will ask that the halftime clock start running when the field is clear of players and they give the "start the clock" signal (#2 in the signal chart) after teams have left the field.
- For the mandatory player warm-up at the end of the halftime intermission, the 3:00 minutes should be displayed on the field clock.
NOTE: The length of the mandatory player warm-up is specified, but not the type of warm-up. Therefore, time spent running from locker rooms to the playing field can be counted as warm-up activity.
- When time must be added to or subtracted from the time displayed on the field clock what signals will be used by the Referee?
NOTE 1: Signal #2 of the officials' signal chart is often used by the referee to indicate that time should be run off the clock.
NOTE 2: Signal #3 is often used by the referee to indicate that the game clock should not run.
NOTE 3: Signal #1 of the officials' signal chart is used by the referee to indicate the period is extended by an untimed down. Reasons for extending a period for an untimed down include:
 - (a) time expired during a touchdown lay and the try will be attempted as part of the same period, or
 - (b) there was a foul by either team and the penalty was accepted, or
 - (c) there was a double foul, or
 - (d) there was an inadvertent whistle.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

Ball ready for play Untimed down Start Clock Discretionary or injury time out

On kickoffs, the field clock starts when the ball is legally touched by any player and the game officials give signal #2. The ball is "legally touched" on a kickoff when the kicked football is touched:

- (1) Anywhere by a receiving team member, or
- (2) 10 yards beyond the kickoff line by a kicking team member.

Action which causes the game clock to stop can be classified as "major" and "minor" clock stoppers.

- On major clock stoppers, the game clock will not be restarted until the ensuing snap or free kick. Major clock stoppers include:
 - Ball goes out of bounds, • Fair catch is made,
 - Fair catch is awarded, • A score occurs (e.g., touchdown, try, field goal),
 - Touchback occurs, • Forward pass is incomplete
 - Team time out is granted, • TV/radio time out is granted,
 - End of period, • Time is consumed illegally, and
 - Penalty for delay of game foul is accepted.

With minor clock stoppers, the game will be restarted when the referee gives the "ready for play" and "start the clock" signals. However, major clock stoppers take precedence over minor clock stoppers-

Minor clock stoppers include:

- Any foul,
- Inadvertent whistle,
- Officials' time out for: First down, Measurement for first down, Change of possession down, Equipment repair, Coach/referee conference not charged to the coach's team, Injured or apparently injured player,
- Any unusual delay (such as drying the ball or unpling players after a down).

The game clock will NOT run during (1) points after touchdowns and 2) overtime periods.

NOTE: Before the commencement of the first overtime period, there is a three minute intermission. Before the commencement of subsequent overtime periods, there is a two-minute intermission. No time is set on the game clock; the intermissions are timed by the game officials.

An exception to normal clock operating procedures occurs anytime in the second half when the score of the game shows a point differential of 35 or more points.

NOTE 1: When a team scores a touchdown/extra point or field goal to give it a lead over its opponent of 35 or more points, the clock will commence running when the ball is legally touched on the subsequent kick-off and continue to run without interruption even though the clock would, normally, be stopped for (1) incomplete forward passes, (2) the ball or runner going out of bounds, (3) touchdowns or successful field goals, and (4) the administration of penalties.

NOTE 2: Under the "35 Point Rule," the field clock is stopped for time outs-team time outs, injury time outs, time outs charged to the referee, or following scores.

NOTE 3: Normal clock operating procedures resume when a team scores (safety, field goal, or touchdown) to make the differential less than 35 points.

School Bands, Cheerleaders, and Pom-Pom Squads

School bands, cheerleaders, and pom-pom squads are welcome participants at interscholastic football games because they add entertaining elements to the school activity. However, personnel of these co-curricular groups are expected to conduct themselves in dignified, safe manners.

Several days before the day of the football game band directors for the home and visiting teams, and adult supervisors of cheerleading and pom-pom squads should contact the game manager indicating their intentions to participate in activities of the football game, and also supply the game manager with:

- (1) Number of members in the band, cheerleading and pom-pom squads attending the game, and
- (2) Plans to perform on the playing field before the game and/or during the halftime intermission.

NOTE: The contest manager will assign the respective band to stadium seating areas based on the number of band members.

The following guidelines for school bands apply to football playoff games. Band directors and the contest manager should discuss these items before the bands arrive at the site of the regular season game.

- Free admission is expected for bands which perform (march) on the field prior to the game or during the halftime intermission,
- Free admission could be refused to bands which do not perform (march) on the playing field.
- Pre-game performances on the field must be limited to the area between the two 30-yard lines to accommodate football teams which continue their warm-ups to the time of introductions.
- The band from the home (host) school will perform the National Anthem.

NOTE: For games played at a neutral site or for football playoff games, a coin toss could be used to determine which band will play the National Anthem.

- The need to extend the length of the intermission from (the usual) 15 minutes to (a maximum of) 20 minutes for half-time activities must be communicated to the contest manager several days before the day of the football game.
- The maximum lengths of on-field halftime band routines should be (1) 10 minutes if only one band is performing or (2) 7 minutes if both bands are going to perform.
- During the game, bands should not play while the game clock is running.

NOTE: Bands can play during time outs, between quarters, the halftime, and before and after the game.

- Bands are not allowed to use electronic amplification devices during football playoff games.
- On-field band performances may be canceled if inclement weather makes the playing field soft and muddy.

NOTE: When the on-field performance is canceled, free admission for band members should be given IF the contest manager does not notify the band director before his group leaves the home town for the game.

The following guidelines for cheerleaders apply to football playoff games. Cheerleading supervisors and the contest manager should discuss these times before cheerleaders arrive at the site of the regular season game.

- Cheerleaders (in uniform) should be granted free admission to the football game.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

- Cheerleaders should be outside the restraining fence which surrounds the playing field.
NOTE: If there is no room for cheerleaders other than inside the restraining fence, then cheerleaders are not to be on the sideline or on the field and they are not to follow the ball up and down the field.
- Cheerleaders should remain in front of their fans.
- Electronic amplification devices cannot be used for football playoff games.
- Team mascots should (1) conduct themselves in respectful manners, (2) avoid confrontations with the opposing team's mascot, and (3) refrain from attempts to interact with game referees.
- Cheerleading restrictions that apply during football playoff games include the following:
 - Mini trampolines, other rebounding devices and related pieces of equipment are prohibited.
 - Routines which involve pyramids or similar ventures are not permitted.

NOTE: A "pyramid" exists when more than two levels of bodies are assembled in a routine.

The following guidelines for pom-pom squads apply to football playoff games. Supervisors of pom-pom squads and the contest manager should discuss these items before pom-pom squads arrive at the site of the regular season game:

- Pom-pom squads are not considered to be part of either the band or the cheerleaders and squad members could be asked to pay admission to the game.
- It may be necessary to cancel planned on-field programs if the playing field becomes wet and muddy.
- The length of the halftime routine should permit performances by school bands and the pom-pom squad from the opponent's school.

Ball Persons

Ball persons, whose duties include (1) drying wet footballs and (2) retrieving footballs that are out of play, are selected for their agility, quickness, and ability to stay focused on events that occur during the entire football game. Ball persons who have these qualities will give respective offensive teams the advantage of snapping playable footballs in timely manners that suit the teams' styles of play. Ball persons should introduce themselves to the game officials as soon as possible before the game. Ball persons selected by the contest manager will handle footballs furnished by the host school and approved for play by the referee.

The visiting team may be asked to designate a ball person if that team elects to use footballs from a manufacturer other than the footballs furnished by the host school.

All footballs used in the game must be approved by the referee before the game. The referee will (1) verify that submitted footballs have the specified markings, dimensions and proper air pressure and then (2) mark the footballs for easy identification during the game.

Equipment for ball persons includes:

- (1) Towels,
- (2) "Kangaroo vest" (optional), which has pockets for holding several footballs, and
- (3) "Ball Dry Compound" (optional), a mixture of water-absorbing powders contained in a plastic bag.

Ball persons move along the sidelines but stay at least 3 feet from the sidelines when play is in progress.

NOTE 1: When only one set of footballs is used, the ball person is located on the press box side of the field and is under the jurisdiction of the line judge.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

NOTE 2: When each team uses its own footballs for downs when it snaps the ball, then two (or more) ball persons are used: one on each side of the field. The respective ball persons are then under the jurisdictions of the line judge and linesman.

Ball persons should stay within 5 yards of the line of scrimmage and not come onto the playing field with a "new" football unless summoned by an official. The "new" football should be played to the nearest game official when the official requests it.

When a runner carries the football out of bounds, the game official will place the football on the ground on the sideline at the out of bounds spot. Another football should be relayed onto the field for placement on the nearest hash mark. After the "new" football is in place on the hash mark, the "old" football can be picked up by the ball person.

When forward or backward passes go out of bounds, the ball person should relay a "new" football onto the playing field before the "old" football is retrieved.

When forward passes thrown far beyond the line of scrimmage are incomplete, the game officials may request that the ball person relay a "new" football onto the field before retrieving the "old" football.

On field goal attempts and tries after touchdowns, the ball person should place a "new" football at the base of a goal post before retrieving the kicked ball.

Procedures for Locker Room Usage

The district has extended the privilege to all athletic teams the use of the locker rooms and facilities within the district. However, there are concerns with the security level of our locker rooms. The administration in conjunction with the Athletic Director has put in place procedures for securing the locker rooms.

- Coaches need to make certain that the doors are **locked** at all times when you and your team are not in the locker room.
- Remind each student to purchase a lock for their locker in the team room and/or the locker room itself.
- As you exit the locker room to the practice facility make certain that all doors are locked because access to the area is accessible from the loading dock.
- Reinforce to all student athletes not to bring any valuables to practice and if they do develop a procedure for securing the valuables.
- Emphasize to all student athletes that the school district is not responsible for any stolen or lost items.

These procedures should be carried out during all practices and games that take place within the confines of the West Mifflin Area High School.

Procedures for Locker Room Usage at Away Contests

The Athletic Director is directed to inspect all locker room facilities at away venues for any damage or vandalism before allowing the team to enter the facility. This practice is to protect yourself and your team from being falsely accused of an act that you and your team had no part in doing. In the case that you do find some discrepancies with the facilities:

WEST MIFFLIN AREA ATHLETIC HANDBOOK

- Report your findings to either the visiting school's Athletic Director or Head Coach.
- Write the discrepancies down and have the person you reported the situation to sign the note to acknowledge the discrepancies.
- Report the incident to the Superintendent of West Mifflin Area School District.

If this procedure is not followed the district will not have the evidence or documentation to pursue the other school district for restitution.

Prayers at Athletic Contest

Due to the separation of church and state the West Mifflin Area Athletic Committee has established the following criteria for any religious passage and/or religious intentions at all our contest.

- The passage may be printed and distributed as an element of a program that is distributed at a Senior Night functions.
- The passage will not be read aloud.
- The passage will not have attention called to it by any formal public address system.

Procedure for Removal of an Unruly Spectator

The WMAAC has mandated guidelines for our athletic staff to remove a spectator that has become unruly or is disrupting the athletic competition.

If a spectator is yelling obscenities or using foul language the Athletic Director, School Director, and/or designee will initiate the first contact with the spectator. The Athletic Director, School Director, and/or designee will then ask the spectator to refrain from using the inappropriate language and then inform them, that if they do not stop they will have to leave the venue.

If the spectator does not comply with the Athletic Director's, School Director's, and/or designee's request the individual will notify the School Police and West Mifflin Police as to the situation and remove the spectator with their assistance. The spectator will then be charged with disorderly conduct.

In the case of a spectator coming on to the competition surface at any time during a contest the spectator will be removed from the venue. The Athletic Director, School Director, and/or designee will initiate the process of removing the spectator with the aid of the School Police and West Mifflin Police. The spectator will be charged with disorderly conduct.

If a situation arises that the spectator becomes aggressive towards another person or a person involved in the contest the Athletic Director, School Administrator, and/or designee will do the following:

- Have both coaches escort their teams to the locker room.
- The Athletic Director, School Administrator, and/or designee will escort game officials to their locker room.
- West Mifflin Police along with our School Police will subdue the spectator and remove them from the venue. Charges will be filed with the West Mifflin Police.
- Depending on the situation, the Administration will assess the outcome and will determine if the contest will be concluded or restarted.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

- The Administrators will base their decision on the welfare and safety of the athletes and fans.
- The Administrators will also consult with the game officials on the situation.
- The Administration in conjunction with the game officials may postpone play until the venue is cleared ensuring a safe environment for participants in the events.

Faculty Athletic Managers

The WMAAC extends the same authority to you as the game manager. The Faculty Athletic Manager will attempt to contact the Athletic Director or a School Administrator to inform them of the situation. However, if there are no school police at your contest and you feel a situation is arising to call the West Mifflin Police and ask for their assistance. The Faculty Athletic Manager must follow-up on all procedures with a written report to the Building Principal immediately. The report will include all necessary details of the incident and the spectators name if possible.

NCAA Initial-Eligibility Clearinghouse

Many college athletic programs are regulated by the National Collegiate Athletic Association (NCAA), an organization founded in 1906 that has established rules on eligibility, recruiting, and financial aid. The NCAA has three membership divisions - Divisions I, II, and III. Institutions are members of one of the divisions according to the size and scope of their athletic programs and whether they provide athletic scholarships.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

If you are planning to enroll in college as a freshman and you wish to participate in Division I or II athletics, you must be certified by the NCAA Initial-Eligibility Clearinghouse. The Clearinghouse was established by the NCAA member institutions in January 1993. The Clearinghouse ensures consistent application of NCAA initial-eligibility requirements for all prospective student athletes at all member institutions.

It is your responsibility to make sure the Clearinghouse has the documents it needs to certify you. Documents are available on the website <http://www.ncaaclearinghouse.net/> These documents are:

1. Your completed and signed Student Release Form and fee.
2. Foreign Student Application.
3. Your official transcript mailed directly from every high school you have attended.

WPIAL CHAMPIONSHIP FOOTBALL

CRITERIA FOR “PLAYOFF” OVERTIME PLAY

NOTE: Please have this procedure read over the PA system prior to the beginning of overtime.

All WPIAL football playoff games will have a winner determined in the following manner if a tie prevails at the end of regulation play:

1. Regular National Federation High School Football Rules will apply in the overtime.
2. A three-minute intermission will allow coaches and players to confer while officials assemble at the 50-yard line to review the procedure.
3. A coin toss will be held and the visiting captain shall make the choice. The winner of the toss may elect offense or defense while the other captain will determine which end of the field will be used. Both teams will use the same end. The loser of the overtime-coin toss will have his choice if a second series of downs is needed. Captains will alternate choices if more periods are needed.
4. The ball will be put in play at the ten-yard line going in.
5. Both teams will have four downs to score unless a loss of possession or a score occurs. A try for point will be permitted. If a touchdown is scored a try will not be attempted when it is not needed. A loss of possession will give the defense the ball on the ten-yard line.
6. **If the defense gains possession, the down and series for the offense ends immediately and the defense will put the ball in play at the ten yard line.**
7. Each team shall be permitted one additional time-out during each overtime period (a series for Team A and a series for Team B) plus any unused second half regulation game time-outs.
8. The team scoring the greater number of points in the overtime will be the winner.
9. If a tie persists after both teams have had their opportunity to score, the process will be repeated. The loser of the over-time coin toss will have his choice for the second series of downs. **The coin will not be flipped again.** Captains will alternate choices if more periods are needed.

No student, parent/guardian, coach, sponsor, volunteer or district employee shall engage in, condone or ignore any form of hazing.

The Board encourages students who believe they, or others, have been subjected to hazing to promptly report such incidents to the building principal or designee.

Title IX Sexual Harassment and Other Discrimination

Complaint Procedure

WEST MIFFLIN AREA ATHLETIC HANDBOOK

A student who believes that they have been subject to hazing is encouraged to promptly report the incident to the building principal or designee.

Students are encouraged to use the district's report form, available from the building principal, or to put the complaint in writing; however, oral complaints shall be accepted and documented. The person accepting the complaint shall handle the report objectively, neutrally and professionally, setting aside personal biases that might favor or disfavor the student filing the complaint or those accused of a violation of this policy.

The Board directs that verbal and written complaints of hazing shall be provided to the building principal or designee, who shall promptly notify the Superintendent or designee of the allegations and determine who shall conduct the investigation. Allegations of hazing shall be investigated promptly, and appropriate corrective or preventative action be taken when allegations are substantiated. The Board directs that any complaint of hazing brought pursuant to this policy shall also be reviewed for conduct which may not be proven to be hazing under this policy but merits review and possible action under other Board policies.

Interim Measures/Police

Upon receipt of a complaint of hazing, the building principal or designee, in consultation with the Superintendent or designee, shall determine what, if any interim measures should be put in place to protect students from further hazing, bullying, discrimination or retaliatory conduct related to the alleged incident and report. Such interim measures may include, but not be limited to, the suspension of an adult who is involved, the separation of alleged victims and perpetrators, and the determination of what the complaining student needs or wants through questioning.

Those receiving the initial report and conducting or overseeing the investigation will assess whether the complaint, if proven, would constitute hazing, aggravated hazing or organizational hazing and shall report it to the police consistent with district practice and, as appropriate, consult with legal counsel about whether to report the matter to the police at every stage of the proceeding. The decision to report a matter to the police should not involve an analysis by district personnel of whether safe harbor provisions might apply to the person being reported, but information on the facts can be shared with the police in this regard.[\[15\]](#)

Referral to Law Enforcement and Safe Schools Reporting Requirements –

For purposes of reporting hazing incidents to law enforcement in accordance with Safe Schools Act reporting, the term **incident** shall mean an instance involving an act of violence; the possession of a weapon; the possession, use, or sale of a controlled substance or drug paraphernalia as defined in the Pennsylvania Controlled Substance, Drug, Device and Cosmetic Act; the possession, use, or sale of alcohol or tobacco; or conduct that constitutes an offense listed under the Safe Schools Act.[\[16\]](#)[\[17\]](#)[\[18\]](#)

The Superintendent or designee shall immediately report required incidents and may report discretionary incidents, as defined in the Safe Schools Act, committed by students on school property, at any school-sponsored activity or on a conveyance providing transportation to or from a school or school-sponsored activity to the local police department that has jurisdiction over the school's property, in accordance with state law and regulations, the procedures set forth in the memorandum of understanding with local law enforcement and Board policies.[\[16\]](#)[\[17\]](#)[\[19\]](#)[\[20\]](#)[\[21\]](#)[\[22\]](#)

In accordance with state law, the Superintendent shall annually, by July 31, report all new incidents to the Office for Safe Schools on the required form. [\[16\]](#)[\[22\]](#)

Confidentiality

Confidentiality of all parties, witnesses, the allegations, the filing of a complaint and the investigation shall be handled in accordance with applicable law, regulations, this policy and the district's legal and investigative obligations.

An individual needing medical attention or seeking medical attention for another shall not be subject to criminal prosecution if the individual complies with the requirements under law, subject to the limitations set forth in law. [\[15\]](#)

Students –

If the investigation results in a substantiated finding of hazing, the investigator shall recommend appropriate disciplinary action up to and including expulsion, as circumstances warrant, in accordance with the Code of Student Conduct. The student may also be subject to disciplinary action by the coach or sponsor, up to and including removal from the activity or organization. The fact of whether a student qualified for and received safe harbor under a criminal investigation shall be considered in assigning discipline. [\[4\]](#)[\[7\]](#)[\[15\]](#)[\[24\]](#)[\[25\]](#)

Nonstudent Violators/Organizational Hazing -

If the investigation results in a substantiated finding that a coach, sponsor, or volunteer affiliated with the student activity or organization engaged in, condoned or ignored any violation of this policy, the coach, sponsor, or volunteer shall be disciplined in accordance with Board policy and applicable laws and regulations. Discipline could include, but is not limited to, dismissal from the position as coach, sponsor, or volunteer, and/or dismissal from district employment. [\[26\]](#)

Purpose

The West Mifflin Area School District acknowledges the existence of various community-based booster clubs which encourage the participation of district students in a variety of athletic and other cocurricular or club activities. The Board and administration also recognize that members of these groups give countless hours in support of the goals of their respective organizations, which ultimately enhances the quality of the cocurricular experience of participating students. At the same time, it is absolutely necessary that all district-sponsored programs remain under the control, direction, and supervision of the Board, the administration, and the Athletic Director.

Authority

It is the responsibility of the Superintendent and the Board to recognize school-related organizations and to approve their activities.

Booster organizations do not have the authority to direct the duties of a school district employee. The schedule of contests, rules for participation, methods for earning letters and all other criteria dealing with interschool programs are under the jurisdiction of the West Mifflin Area School District administration.

Being elected and responsible body for directing all educational and cocurricular programs and activities, the Board sets forth the following policy guidelines to maintain its legal and ethical responsibilities in relation to

WEST MIFFLIN AREA ATHLETIC HANDBOOK

booster organizations. Booster groups need to be sanctioned annually in August of each school year by the Board of School Directors.[\[1\]](#)

Guidelines

All booster club officers must be a community member in good standing. All booster group members should have volunteer clearances on file with the appropriate organization.

To facilitate communication between the booster organizations and the district, and to make clear to all concerned the purposes of the booster organizations, the Board requires from each group a list of current officers, their telephone numbers, addresses, and e-mail addresses, and a current statement of bylaws and objectives of the group. These documents must be submitted to the Building Principal by August 1 of every school year. Lists of officers, bylaws, and objectives are to be submitted annually.

Any equipment or uniforms that are purchased by a booster organization for a district-sponsored team/group must be approved by the Business Manager, building principal, and/or the Athletic Director in advance. Personalized items and services provided by a booster organization to student participants or coaches must be approved by the appropriate coach/director/advisor and Athletic Director or appropriate building administrator prior to purchase.

When using any school facility or equipment for meetings, fundraisers, socials, banquets and other activities, booster clubs shall request permission of the building administrator to conduct such an event and shall coordinate the date of the event with the appropriate district administrator. An application for Use of School Facilities must be completed, and approval must be received prior to the event as per Policy 707.[\[2\]](#)

Each booster organization must as part of its bylaws agree to abide by the disciplinary policies of the district concerning the conduct of district students in all district-related activities.[\[3\]](#)[\[4\]](#)[\[5\]](#)

Responsibilities of the District

The school district shall be solely responsible for:

1. Supervising athletics and activities.
2. Posting, recruitment, interviewing, selecting, evaluating, and monitoring athletic and activities personnel.
3. The selection, purchase, use, maintenance and storage of equipment.
4. Ensuring that district athletics and activities adhere to district, league, and state rules and regulations.
5. Hiring and supervision of officials.
6. Transportation of participants to and from regular functions and district facilities.
7. Scheduling of competitions and activities.
8. Maintenance and administration of athletic department and cocurricular activity funds.
9. All decisions concerning the program operations, maintenance, administration, and the selection of award winners.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

Chain of Command

Concerns or issues of individual members of booster groups or support groups regarding the team or athletic program should follow the chain of command indicated below:

Step 1 – Coach/Activity Sponsor

Step 2 – Athletic Director

Step 3 – Building Principal

Step 4 – Central Office Administration

Fundraising

Fundraising for the benefit of the students should be educationally appropriate and follow these general operating guidelines.

Booster clubs are adult organizations, which sponsor adult fundraising activities carried out in the name of the school. Students are not to be involved in fundraising activities during school hours.

A key to the success of any organization is clear communications. Each booster organization must establish and maintain clear communications with its members as to the purpose of the organization and the desired voluntary commitment of its members.

Letters should go home to parents/guardians explaining the fundraisers and the cost involved in running the booster programs. Parents/Guardians should be informed of the meeting dates, location, and when fundraising agenda items will be discussed and/or voted on in the organization.

Fundraising activities may occur during the length of a particular athletic/sport season, a school year, or as a special activity year round approved by the building principal. The appropriate school office will coordinate a calendar with all scheduled fundraising events.

Student participation in an “off-season” league or tournament, where costs are assessed on a per student basis to cover entry fees, will be the responsibility of the parent/guardian. Off-season fundraisers need to be approved by the Board of School Directors.

Concessions

Booster/Support organizations involved in concessions at school events shall follow district guidelines for use of, and payment for, facilities. The group using the concession stand is responsible for clean-up of the facility. Equipment must not be removed without permission. Booster organizations involved in concessions at school events shall follow district guidelines and are encouraged to follow the district student wellness policy.[6]

To avoid conflicting events and demands on students and school personnel, each booster club may sponsor banquets to which students may be invited, without charging admission to such students.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

A booster club planning a recognition event shall request permission of the building principal to conduct such event and shall clear the date for the event with the building principal/athletic director.

If you are aware of your next year's banquet date prior to the end of the school year, it can be placed on the district-wide activities calendar.

Each booster organization, including non-booster athletic organizations, must follow the P.I.A.A. guidelines when giving gifts to students.

When banquet facilities are used off school grounds, the following guidelines will apply:

1. The banquet will be recognized as a school function and all school rules will apply and be enforced, including the Code of Student Conduct.
2. No alcoholic beverages or tobacco products will be permitted in the banquet area.
3. An announcement must be made at the beginning of each banquet summarizing these items.

Finance and Reporting

Each booster group shall name an FDIC insured depository bank into which all proceeds and receipts shall be deposited. Booster/Support groups must follow appropriate accounting practices in maintaining and disbursing funds.

The district does not assume any financial responsibility for a booster group and excludes itself from any liability a booster group may incur.

Booster groups shall not use the district tax-free number for purchases. Groups should consider filing with the Commission on Charitable Organizations, Department of State, as a charitable nonprofit organization.

Booster organizations with administrative recognition, and defined as nonprofit civic and service organizations that support extracurricular activities, may conduct small games of chance on or off school property in accordance with law.

Role Of The Head Coach/Activity Sponsor

The head coach should have an active role in his/her respective booster organization and the decision-making process of the club. S/He should be involved in the structure of the organization's agenda for meetings and actively participate in the meeting. If the head coach cannot attend, a representative from the coaching staff should attend.

Vending Contracts

Booster organizations are not authorized to enter into any contractual agreements that violate existing contracts between vendors and the school district or that violate other Board policies. All vending contracts are subject to the prior approval of the Board of Directors.

Programs

WEST MIFFLIN AREA ATHLETIC HANDBOOK

Each booster organization is responsible for and must screen all program advertising for appropriate content. If there is any doubt about the content of an ad, it must be approved by the secondary principal. Advertising of alcoholic beverages or tobacco products are not permitted in any programs. Booster organizations are responsible for time, material and cost of producing a program.

Annual Meeting

In an effort to improve communication between the West Mifflin Area School District and the boosters, there will be an annual meeting where all of the booster clubs meet with the district's administration. The meeting will be held at a mutually agreeable time and date in August. The purpose for the meeting will be to share ideas and discuss issues that arise during the school year.

Requirements and Recommendations

The West Mifflin Area School District requires that each organization:

1. Submit a yearly financial report of revenue and expenditures to the school district prior to August 1 for the Athletic and Activities Committee's review. At the conclusion of each fiscal year, the booster organization shall submit to the District Administrative office a general accounting of money raised and the equipment, favors, awards, supplies, banquet, or salary expenditures incurred and purchased by the organization during that year.
2. Booster groups may not use any district accounts for any purchases.
3. Provide minutes of meetings to the principal and the athletic director within one (1) month after the meeting occurs.

Disband/Cease to Operate

In the event a booster club disbands or ceases to operate, all remaining funds and other cash assets will be transferred to the West Mifflin Area School District in trust for the sole purpose of distributing said funds for the benefit of its successor club or like group.

Compliance

Should any situation emerge between a booster organization and the school, the high school principal shall resolve the issue within the established guidelines or Board policy. No booster organization shall engage in any activity outside these guidelines.

Violation of Board policy or Title IX policy may lead to revocation of a booster organization's function in district activities.

FOOTBALL PRE-SEASON HEAT-ACCLIMATIZATION GUIDELINES

Practice or competition in hot and/or humid environmental conditions poses special problems for student-athletes. Heat illness is a primary concern in these conditions. Having a scripted practice plan with breaks from activity as well as scheduled hydration and cooling off periods will be of great assistance in preparing student-athletes for the football season

CORE PRINCIPLES:

1. **Acclimatization Period:** All schools sponsoring high school football are recommended to institute the heat acclimatization program on Monday or Tuesday (August 10 or 11, 2020) for 5 consecutive days prior to the Monday starting date (August 17, 2020) for the 2020 football season. If a school opts to institute heat acclimatization during this period, the intent is to have all members of the team be present and participate in all 5 consecutive days of the heat acclimatization period, but minimally, a player must be present for 3 consecutive days of these first 5 days of heat acclimatization to satisfy the requirement. A school must have 5 consecutive days of heat acclimatization prior to their first contact drills and contact drills may not be initiated before Monday, August 17, 2020 (the first legal practice date of fall sports).
 - The practices for this week are limited to a 5-3-5-3-5 hours of practice daily for the 5 days of heat acclimatization. Practice sessions may be no longer than 3 hours in length and teams must have 2 hours of rest (recovery period) between sessions. Days 1, 3 and 5 are limited to 5 hours per day and Days 2 and 4 are limited to 3 hours per day. NOTE: For the 2020 Football Season, if a Team is unable to meet the 3 hour daily minimum due to school being in session during the day(s) of heat acclimatization, the Team is expected to maximize the time available for heat acclimatization on those days to satisfy the spirit and intent of this guideline.
 - Helmets and shoulder pads with shorts are permitted the first 5 days of heat acclimatization. Full gear and contact may not be worn until Monday, August 17th after the completion of the five consecutive day heat acclimatization period.
 - If a school starts heat acclimatization on Monday, August 10th, if they choose, they may practice on Saturday, August 15th, but there may be no contact on this day the same as the previous 5 days of heat acclimatization since it is prior to the first contact day of Monday, August 17th. If a school starts heat acclimatization on Tuesday, August 11th, then Saturday August 15th is their 5th consecutive day of at acclimatization and no contact is permitted.
 - If a school starts heat acclimatization on the first practice day, Monday, August 17th, they must have 5 consecutive days of heat acclimatization with helmets, shoulder pads, shorts, prior to their first legal practice with contact. If starting on August 17th, a school must have 5 heat acclimatization days, plus the 5 regular practice days (where contact and full gear is permitted) before their first scrimmage. If they are scheduled to play on the first play date of the fall season, this schedule may limit them to only 1 scrimmage. Schools are advised to be cautious in scheduling a second scrimmage if starting heat acclimatization on August 17th.
 - The only exception to the first legal play date for football is those schools who are playing Week Zero by trading a scrimmage for their first regularly scheduled contest. That varsity team may play the optional weekend of August 28 & 29 with junior varsity competition to follow.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

2. Scrimmages: A team shall not participate in a scrimmage prior to the first available scrimmage date as provided in Article XVI: Season and Out-of-Season Rules and Regulations of the PIAA By-Laws.
3. Participation Limitation: No Team, no individual member or members of such Team, and no individual representing any PIAA member school, may Practice or participate in an Inter-School Practice, Scrimmage, Contest, and/or Open Gym on more than six days in any Calendar Week during the Regular Season.
4. Out-of-Season Activities: General conditioning provides only partial heat acclimatization. Therefore, student athletes should be exposed gradually to hot and/or humid environmental conditions to provide better heat acclimatization. Each exposure also should involve a gradual increase in the amount of exercise that is undertaken over a period of days to weeks until the exercise intensity and duration is comparable to that likely to occur in competition. If conditions are extreme, training or competition should be held during a cooler time of the day.
 - When protective gear and clothing is authorized by the school Principal outside of the defined season, frequent rest periods should be scheduled so that the gear and clothing can be loosened to allow evaporation of sweat and other forms of heat loss. During the acclimatization process, it may be advisable to use a minimum of protective gear and clothing and to Practice in T-shirts, shorts, socks and shoes. Excessive tape and outer clothing that restrict sweat evaporation should be avoided. Rubberized suits should never be used.

Maximum Practice Time: The maximum allotted time per day for practice is 5 hours and teams must have 2 hours of rest between sessions.

Minimum Practice Time: The minimum practice time for the first five days is 3 hours per day.

Practice: The time a player engages in physical activity. It is defined that any practice session be no greater than three (3) hours in length. Warm-up, stretching, conditioning, weight training and ‘cool-down’ periods are all considered practice.

Recovery Period: A minimum of a two (2) hour recovery period must be provided after any session.

Walk-through: No protective equipment or strenuous activity permitted. Only balls and field markers (cones) may be used. Prevention of Heat Illness from the Sport Medicine Guidelines of the PIAA Handbook should be observed.

These include regular measurements of environmental conditions. See Sports Medicine Guidelines for more detail or consult with your athletic trainer and/or team physician.

Selection of Starlettes, Silks, and Band Front

Purpose

This policy is applicable district-wide and will be published and made available to candidates in writing prior to tryout practices, effective with 2000-2001 participants.

Guidelines

A copy of the written policy governing auxiliary group members is to be posted in a place accessible to the general student population and general public (e.g., bulletin board, library, and school office). Posting is to be done prior to tryouts. Upon selection, compliance with the rules is mandatory. Noncompliance is cause for suspension or expulsion from the group.

The school will utilize both oral and written media to make students and parents/guardians aware of the date, time, and place of tryouts, and the written policy governing the selection of high school Starlettes, Silks, and Band Front, hereafter referred to as groups.

The faculty and other employees are to be made fully aware of this policy governing group members.

Before Tryouts

Any student that presents a valid medical excuse by a certified doctor that s/he cannot participate in tryouts shall have the opportunity to try out two (2) weeks after the initial tryout. Parents/Guardians must make arrangements and pay for the same judges used in the initial tryouts.

The sponsor must be notified no later than the actual tryout date if a special tryout is to be considered.

The parents/guardians and other interested adult citizens (21 years or older) are permitted to attend the practices. Their role will be that of observers. In an effort to minimize and/or eliminate the possibility of any disruptions or interference with the work of the group, any communication with group members is to occur after the practice session. Tryouts will be closed.

The possibility of the purchase of additional apparel must be disclosed to the student/parent/guardian before the tryouts.

Tryouts

Applicants should be able to do all of the following commands:

WEST MIFFLIN AREA ATHLETIC HANDBOOK

All applicants will be enrolled students.

Upon request, all students trying out will be given a personal copy of their scores after the compilation of the scores by the judges. Candidates will have their numbers and scores posted upon tabulation. If an applicant fails to try out (having a legitimate excuse, medical excuse, or death in the immediate family), the group will not be announced for two (2) weeks.

Absence –

1. All members must be present for summer band camp, which occurs during the month of August before the beginning of the fall school term. All members must be in band camp for the entire day (8:30 a.m. to 4:00 p.m.). All members will be notified of the exact dates on or before the time of tryouts. Anyone **electing** to absent him/herself these days will be terminated from the group. **Any** absence (excused or unexcused) during band camp will result in alternate status for the show(s) taught during that time. That member also will not participate in the Kennywood Parade.
2. Excusable absences are confined to death in the immediate family, make-up work for school, dress rehearsal for other school activities, or illness accompanied by a doctor's excuse. School approved absences (field trips, college visitation, etc.) will also be counted as excusable absences. Absences for reasons other than those listed above are considered unexcused.
3. No group member may have more than three (3) absences from practices or performances (excused or unexcused) at any time throughout the entire marching band season. Any subsequent absence will result in that

WEST MIFFLIN AREA ATHLETIC HANDBOOK

member being disqualified for the next immediate performance. More than two (2) unexcused absences will be grounds for immediate dismissal from the group. Work, detention, and other school meetings are not excusable. Band practice supersedes all other rehearsals or meetings.

4. Arriving late to scheduled practices without prior permission by group coordinator will be considered one (1) late. The accumulation of two (2) lates will be considered an unexcused absence.
5. Absences from school on the day of a scheduled activity or failure to participate in a dress rehearsal for that specific activity will prohibit a student from performing (see Appearance #5). Exceptions include participation in a religious activity, death in the immediate family, and attending a doctor's appointment though written documentation by a physician is mandatory.

Definitions

1. Dress rehearsal is the last full practice the day before the performance AND the final rehearsal the day of the performance.
2. Doctor or dental appointments should be scheduled on days other than rehearsal days.

Rehearsals are scheduled enough in advance to make this adjustment.

3. Any member not present at the time specified by the sponsor or band director will be considered late. The accumulation of two (2) lates will be considered an unexcused absence.
4. Attendance will be taken at all practices and performances by the group sponsor, including summer band.
5. Excusable absences are confined to death in the immediate family, make-up work for school, dress rehearsal for other school activities, or illness accompanied by a doctor's excuse. School approved absences (field trips, college visitation, etc.), with notice, will also be counted as excusable absences.
6. Absences for reasons other than those listed above are considered unexcused.
7. All group members must travel with the band to all functions. **Only a parent or legal guardian** may report to the sponsor at a function in order to take a member home with him/her. **No student may leave the group without being accompanied by a parent or legal guardian.** Prior written permission to the sponsor from the parent/guardian to leave early is required. Each member is then responsible for all his/her equipment if s/he leaves early.
8. If, for any reason, a group member is dismissed from or leaves the group on his/her own, the position will be filled **prior** to the first day of band camp. After that time the position may be filled by an alternate and the alternate **may** be filled by band front. Open position will remain vacant.
9. Any extenuating circumstances regarding absences and/or enrollment will be reviewed by the band staff and building level directors on a case-by-case basis.

Pep Assemblies

Attendance in school the day of a scheduled pep assembly requires full uniform and participation. Failure to comply will be considered an unexcused absence.

Alternates

WEST MIFFLIN AREA ATHLETIC HANDBOOK

Selection of Alternates -

The selection of alternates is based on:

1. Attendance, scholarship, and numeric ranking at tryouts.

EXAMPLE: If the Silks Group is made up of 40 qualified persons. The first 36 are regular members and the last 4 are alternate members (i.e. the last 4 will always be alternates).

2. In the event a person does not wish to be an alternate, the next qualified person will be eligible for the position.
3. The alternates will be used at the discretion of the sponsor.

Attendance of Alternates -

Alternates are required to attend every practice that a regular member must attend. Thus, all regulations regarding attendance for regular members apply to all members.

When an Alternate Practices for Performance -

If an alternate replaces a regular member for one (1) full practice, it does not necessarily mean that the alternate will perform that week in that spot. Only if the alternate takes the place of a regular member and adequately performs the routine in the dress rehearsal will the alternate march for that performance.

When an Alternate Performs -

Every attempt will be made to rotate alternates. However, the choice of an alternate will primarily be based on routine knowledge and how that student fits in the established routine.

EXAMPLE: Starlette Kick-line is based on height. An alternate closest to size and who has acceptable knowledge of the routine will be chosen.

It will be the duty of the sponsor of the group to keep an accurate written record of the performances of the alternates. This record must be available to the principal upon request, at all times.

Exceptions to the Rotation of Alternates -

1. At the performances designated to recognize senior members during homecoming activities, alternates will have the opportunity to perform.
2. If an alternate has more than three (3) absences (excused or unexcused), s/he will forfeit his/her turn in rotation and be placed at the end of the rotation.
3. In the event of an unforeseen circumstance which is not covered in this constitution, the sponsor will designate the alternate.
4. Adverse effects on the Kick-Line.
5. Insufficient knowledge of routine as determined by sponsor and band staff.

WEST MIFFLIN AREA ATHLETIC HANDBOOK

Duties -

Alternates not performing are required to be at games or performances to assist the group. Sponsors will designate duties of the alternates.

Alternates are governed by all regulations pertaining to the group.

The participants receive many values from cheerleading, and I sincerely hope it will be a worthwhile and enriching experience for your child. If you do not have accident insurance already on your child, I recommend you purchase the insurance offered by the school in September.

_____ has my permission to participate as a member of the cheerleader squad at West Mifflin Area High School. SAMPLE PARENT/STUDENT LETTER

Dear Parents and Interested Students:

This letter is to inform you of the involvement needed to be a _____(school) cheerleader. This information should allow you to make a more educated decision concerning the commitment required to be a part of this extra-curricular program.

Being a cheerleader involves more than just making the squad and cheering at games. Cheerleaders are expected to be at all required practices, fund raising events, sign making activities, and games. This sometimes involves giving up other opportunities.

Cheerleaders are part of a team and all members need to be present for their group to work smoothly. When scheduling other appointments or out of town trips, not only students, but parents must be aware of the event schedules so cheerleaders do not miss activities.

Practices – REQUIRED

- 3 times per week in summer
2-4 hours per week plus games when school starts
Fall practices – Tuesday and Thursday – 7:00 AM
Varsity also practices Wednesday from 3:30 – 5:00 PM
Winter practices (after Thanksgiving) – Monday, Wednesday
3:30 – 5:30 PM

The schedule will not change. If there is a game on a practice day, it is easier to maintain a consistent day for practice than to keep changing practice times.

Lifting weights is also required. This is a very important part of our program to help cheerleaders avoid injuries and gain strength.

- Extra Events – Fund Raising (A LOT!); Pizzas, concession stands, etc.; Locker signs and signs for commons and halls; homecoming; pep assemblies; cakes for teams; parent nights; other special projects

Your signatures below indicate you understand the responsibilities, time and energy involved in becoming a member of a _____(school) cheerleading squad.
