West Mifflin–Adelphoi Partial Program

Supporting Students' Academic, Emotional, and Behavioral Growth

The **West Mifflin–Adelphoi Partial Program** is a partnership between the **West Mifflin Area School District** and **Adelphoi Education**. This program is designed to support students in grades 6–12 who need extra help with emotional, social, or behavioral challenges that may affect success in a regular classroom setting.

Our Purpose

The goal of the Partial Program is to help students strengthen their academic skills, build positive coping strategies, and develop the tools they need to return successfully to their home school. We combine **education, counseling, and behavioral support** in a caring environment.

What We Offer

■ **Academic Support** — Students receive daily instruction from certified Adelphoi teachers. Lessons are individualized to help each student stay on track with their learning.

■ **Therapeutic Services** — Adelphoi's licensed mental health professionals provide daily group therapy, individual counseling, and activities that teach emotional regulation, coping skills, and problem-solving.

■ **Positive Behavior Support** — Students learn to make responsible choices through structured routines, clear expectations, and positive reinforcement. Staff help students reflect, reset, and grow from challenges.

■ **Family Partnership** — We value open communication with families. Parents and guardians are invited to participate in meetings, progress reviews, and transition planning to ensure success both at school and at home.

■ **Transition Planning** — When students are ready, our team works closely with families and school staff to plan a smooth transition back to the home school or another appropriate educational setting.

Program Benefits

- Small class sizes and individualized attention• Daily access to counseling and therapy
- Safe, structured, and supportive environment
- Focus on academic progress and emotional well-being
- Collaboration between school, family, and mental health providers

Our Shared Goal: Together, we help students develop the confidence, skills, and mindset needed for long-term success — in school and in life.
