SERVICE COORDINATION UNITS

SCU: Service Coordination Units provide behavioral health services in different areas throughout Allegheny County. Consumers may access services by using their medical insurance, or fees can be set based on a sliding scale. Depending on the program or income eligibility guidelines, some services may also be free of charge. These agencies offer a wide range of treatment and support for children and adults whose functioning is impaired by mental illness, intellectual disability or alcohol and other drug dependency. Consumers may choose their Service Coordination Unit, but they may find it more convenient to start with the program that services their area.

ADMINISTRATIVE SERVICE COORDINATION

ASC – Administrative Service Coordination is usually a starting point for most families. If a consumer is registered with any Service Coordination Unit in Allegheny County, an Administrative Service Coordinator will assess the consumer’s needs, help search for the appropriate providers, and make referrals to the services needed. An Administrative Service Coordinator provides technical assistance to families and children in need.

This service is available with or without insurance.

BLENDed SERVICE COORDINATION

BSC – Blended Service Coordination – If a child is experiencing more significant serious emotional disturbance(s) that interfere with his or her ability to function, and he or she needs to receive treatment from two or more mental health providers or publicly funded systems, (such as Education, Child Welfare or Juvenile Justice), a Blended Service Coordinator would assist the family and child in coordinating these services. A blended service coordinator will also serve as a link and advocate between multiple systems to ensure the child gets the services that he or she needs. A Blended Service Coordinator will meet with the family/child in the home, at school or in the community, as needed.

Intakes can be done at the office, over the phone, or in the home. Agencies have up to 30 days to receive an evaluation.

INDEPENDENT SUPPORTS COORDINATION

**Allegheny County
Office of Developmental Supports Intake : 412-253-1250**

ISC – Independent Supports Coordination –
Every person registered with Allegheny County Office of Developmental Supports (ODS) receives Supports Coordination services.

The role of an Independent Supports Coordinator is usually described in three ways:

Locating Services – helping you find ways to meet your needs.

Coordinating Services – Helping you access services that will help you.

Monitoring Services – Making sure that you receive services in the safest and best way to meet your needs.

INTENSIVE BEHAVIORAL HEALTH SERVICES

IBHS – Intensive Behavioral Health Services Intensive Behavioral Health Services (previously BHRS) are mental health services provided to youth in their home and community settings. They are sometimes called wraparound services and may include Mobile Therapy, Behavioral Consultation, and Behavioral Health Technician services. IBHS are for children that have a serious emotional or behavioral disorder that can best be treated in the home and/or in the community.

FAMILY FOCUSED SOLUTION BASED SERVICES

FFSBS – Family Focused Solution Based Services are in-home intervention structured to meet the Treatment/Support Services needs of both parent and child. ***FFSBS are only able to be utilized with the parent as the identified client.***

FFSB are delivered in the home and community by a team consisting of a master's level clinician and a bachelor's level family support specialist. FFSBS are designed to integrate mental health treatment, family support services, and service coordination, and are intended to reduce the need for out-of-home placements by enabling families to maintain their role as primary caregivers for their children and adolescents.

COMMUNITY AND SCHOOL BASED BEHAVIORAL HEALTH

CSBBH – Community and School Based Behavioral Health Services are services for children with a severe emotional and/or behavioral need that interferes with their functioning at school, at home or in the community. Services include individual, group and family therapy as well as behavior management, crisis intervention and referrals. Your child is only able to receive this service if it is offered in the school building where your child attends school.

CSBBH services are delivered in the school, home and community using a team approach. Each CSBBH team consists of at least one Masters' level Mental Health Professional (MHP), one or more Bachelor's level Behavioral Health Workers (BHW), and consultation with a psychologist or psychiatrist.

MULTISYSTEMIC THERAPY

MST – Multisystemic Therapy is a multi-faceted, short-term, home and community-based intervention for families of youth with severe psychosocial and behavioral problems. MST is an intensive family and community-based treatment that targets delinquent, violent, or juvenile offenders, both male and female.

To be eligible for MST Services, the adolescent MUST:

- Be 12-17 years of age
- Be residing in a family setting with a caregiver, or returning home after any type of placement
- Have a caregiver who is willing to participate
- Have active Medical Assistance Coverage
- Be exhibiting chronic, violent, delinquent behavior and/or serious emotional problems

If the family is receiving outpatient services, partial hospitalization, or IBHS services, the mental health professionals working with the adolescent must agree to a referral to MST.

FAMILY BASED MENTAL HEALTH SERVICES

FBMHS – Family based Mental Health Services are voluntary mental health services for children and teenagers with serious emotional and/or behavioral disorders, as well as their families. FBMHS is for children who may need other out-of-home services if intense in-home services are not provided.

In addition to family therapy, FBMHS can provide around-the-clock crisis intervention to decrease the possibility of a child needing to leave home due to a crisis situation.

PARTIAL HOSPITALIZATION PROGRAM

PHP – Partial Hospitalization Programs provide mental health treatment delivered in a clinic or school setting, to assist a child in transitioning from inpatient treatment or for prevention of psychiatric hospitalization.

Mercy Behavioral Health

(Ages 6-18)

1200 Reedsdale Street
Pittsburgh, PA 15233

Mercy Partial Hospitalization works towards stabilizing a child's crisis by offering a day program designed for those who are leaving an inpatient setting or need more treatment than is available from outpatient services. The program separates children into elementary, middle school and high school groups. The structure of each day includes three hours in a Pittsburgh Public School therapeutic classroom, two hours in a therapeutic group, and one hour of milieu therapy.

Western Behavioral Health

(Ages 12-18)

1011 Bingham Street
Pittsburgh, PA 15203
412-235-5494

11279 Perry Highway, Suite 500
Wexford PA 15090
724-933- 1100

Western Behavioral Health Partial Hospitalization treatment offers a supportive environment of highly structured time, four to five days a week, for up to 20 hours per week. The program provides individual, family, and group therapies, and medication management.

Wesley Family Services

(Ages 6-18)

243 Johnston Road
Pittsburgh, PA 15241
412-343-2270

The Wesley Family Services Acute Partial Hospitalization Program provides the child with short-term crisis prevention and stabilization and referrals for special education placement or therapeutic help. The program is linked to a transitional school program so the child can keep up with coursework. By living at home during treatment, the child feels secure, and families stay together. Following treatment, the child moves onto a more specialized school setting, or returns to his/her community and school better able to face issues and meet his/her goals.

SCHOOL BASED PARTIAL PROGRAMS

School Based Partial Hospitalization Programs offer intensive mental health and behavioral health service that are designed to be embedded within educational programming. A referral to an APS (approved private school_ that offers a School Based Partial Program is an IEP team decision. The partial within the school will then complete an evaluation to determine if the student is appropriate for the School Based Partial housed within the APS.

DIVERSION AND ACUTE STABILIZATION PROGRAM

DAS – The Diversion and Acute Stabilization Unit is a temporary residential unit for children and adolescents which provides an alternative to inpatient hospitalization, can be used as a transition back into the community from inpatient, or as a step-down unit for RTF.

Its primary focus is to reduce acute symptomology, stabilize medication, avert inpatient hospitalization, and divert from long term RTF. It is staffed 24 hours a day, 7 days a week.

MHY Family Services

521 Route 228
Mars, PA 16046
Phone: 724-625-3141 X 282
Fax: 724-625-2265

MHY FAMILY SERVICES provides basic psychiatric assessments and medication monitoring, intensive individual, group therapy, and educational support. Organized activities are prepared to assist the child with successful integration back into the community or into a more restrictive setting (ages 9-17 years old).

Mercy Behavioral Health

1200 Reedsdale Street
Pittsburgh, PA 15233
Phone: 412-697-3418
Fax: 412-320-2398

MERCY BEHAVIORAL HEALTH provides children in the middle of an acute crisis to receive the care they need in a temporary residential environment. The primary goal of this program is to stabilize a psychiatric crisis for those between the ages of 8 and 14.

INPATIENT HOSPITALIZATION

Inpatient Hospitalization - Acute level of care that includes a short hospital stay, during which youth receive around the clock medical care and intensive therapeutic interventions including intensive family intervention, individual and group psychotherapies, and medication management. Inpatient hospitalization can be utilized to ensure the immediate safety of the youth or those around him/her due to mental and behavioral health crisis the youth may be experiencing. The focus of treatment is to address the crisis or behaviors which led to up to the hospitalization and provide stabilization for the youth in order to discharge to a lower level of care.

INDEPENDENCE AHEAD

Mobile Transition Aged Youth Program (MTAY)

Independence Ahead –

Assists transitioning young adults to develop close therapeutic relationships that are focused on wellness and recovery. The program helps them to learn to manage their mental health symptoms, build safe and strong relationships, and learn to problem solve and resolve conflicts in their schools/employment, communities and relationships. Population served is 18-25 years old and it is a team delivered community-based approach, consisting of a Therapist, Service Coordinator, Psychiatric Rehabilitation and Certified Peer Support.
