SUMMER MATH FUN FOR FAMILIES!

WM TITANS

Math happens everywhere—at home, outside, on trips, and in everyday moments!

Keep your math skills sharp and have fun this summer!

FUN MATH IDEAS FOR SUMMER

ONLINE GAME LISTS
Find fun online games by grade level that build important math skills.

MATH THROUGH PLAY
Explore hands-on and playful ways to build math understanding through everyday fun.

LITERATURE
Enjoy family math books that make learning fun and meaningful.

VIRTUAL MANIPULATIVE APPS
Use free apps to explore math concepts and keep skills fresh all summer long.

MATH TALK
Talk about math every day! Try solving fun problems together at bedtime or anytime.

A little math each day adds up to BIG success!

Have a safe, fun, and math-filled summer!

KEEP LEARNING WITH HMH into Math

Explore math in real life with these simple summer ideas!

- Look for math in your day—count steps, compare prices, or find shapes.
- Cook together—measure ingredients and talk about fractions!
- Use games and puzzles to build number sense and problem-solving.
- Read stories that include math. Ask questions and make predictions.
- Visit HMH Into Math® Family Resources (if provided by your school) for fun activities and printables!

MATH IN THE REAL WORLD!

FIELD TRIPS IN PITTSBURGH

Explore local places where math comes to life!

- **Science centers**—explore patterns, measurement, engineering, and data!
- **History museums**—discover history, maps, money, and more through interactive exhibits!
- **Zoos & aquariums**—count animals, compare sizes, and explore patterns in nature!
- **Downtown & city landmarks**—look at shapes in buildings, count windows, estimate heights, and find symmetry!

Scan the QR code to access a Microsoft Word document with all the websites and resources mentioned!
